

BE WATER EFFICIENT THIS FALL!

Dial It Back

Reduce your watering time during cooler weather. Or, install a weather-based controller to automatically adjust based on the weather.

Embrace the Mulch

Use mulch to prevent weeds and lock in moisture. Mulch can reduce evaporation, meaning you won't need to water as often.

Check for Leaks

Fix leaks to avoid wasting water. Be sure to check your irrigation system and hose bibs where sneaky leaks may be present.

OFFICE CLOSURES

Our office will be closed on Monday, Sept. 4 in observance of Labor Day and Monday, Oct. 9 in observance of Indigenous Peoples' Day. For water-related emergencies, call 916-791-0115.

WATER EFFICIENCY WORKSHOPS

Learn more about how to practice water efficiency in your day-to-day life. Join one of our upcoming Water Efficiency Workshops to hear from the experts directly! To receive more information about upcoming workshops, sign up for email alerts using the QR code below, or follow us on social media @sanjuanwaterdistrict on Facebook and @SanJuanWtrDist on Twitter.

CHANGES TO OUR SOCIAL MEDIA AND OUTREACH PROGRAMS

We are in the process of making some creative and collaborative changes to our social media and outreach efforts.

UPGRADE YOUR IRRIGATION SYSTEM TO A WEATHER-BASED CONTROLLER AND RECEIVE A REBATE!

Once programmed, a Weather Based Irrigation (or "Smart") Controller automatically adjusts to changing weather conditions. Purchase and install a qualified controller and we will credit your account for 50% of the cost of the controller, up to \$500 for residential and \$1,500 for non-residential improvements.

We have also partnered with Rachio to offer the Rachio 3 Smart Sprinkler 16-Zone Controller at a significant discount. A controller is available for just \$75, plus tax.

Visit www.sjwd.org/rebates for more information, including the application process and guidelines.
