

**SAN JUAN WATER DISTRICT
BOARD MEETING AGENDA
May 22, 2019
6:00 p.m.
9935 Auburn Folsom Road
Granite Bay, CA 95746**

The Board may take action on any item on the agenda, including items listed on the agenda as information items. The Board may add an item to the agenda (1) upon a determination by at least three Board members that an emergency situation exists, or (2) upon a determination by at least four Board members (or by three Board members if there are only three Board members present) that the need to take action became apparent after the agenda was posted.

The public may address the Board concerning an agenda item either before or during the Board's consideration of that agenda item. Public comment on items within the jurisdiction of the Board is welcome, subject to reasonable time limitations for each speaker. Upon request, agenda items may be moved up to accommodate those in attendance wishing to address that item. Please inform the General Manager.

Documents and materials that are related to an open session agenda item that are provided to the District Board less than 72 hours prior to a regular meeting will be made available for public inspection and copying at the District office during normal District business hours.

In compliance with the American's with Disabilities Act, if you have a disability and need a disability-related modification or accommodation to participate in this meeting, please contact the Board Secretary at 916-791-0115. Requests must be made as early as possible, and at least one full business day before the start of the meeting.

Please silence cell phones and refrain from side conversations during the meeting.

I. ROLL CALL

II. PRESENTATION

1. Poster Contest Winners – President Dan Rich

III. PUBLIC FORUM

During the Public Forum, the Board may briefly respond to statements made or questions posed by the public, or ask District staff for clarification, refer the matter to District staff or ask District staff to report back at a future meeting. The Board will not take action on any matter raised during the Public Forum, unless the Board first makes the determinations to add the matter to the agenda.

IV. CONSENT CALENDAR

All items under the Consent Calendar are considered to be routine and will be approved by one motion. There will be no separate discussion of these items unless a member of the Board, Audience, or Staff request a specific item removed after the motion to approve the Consent Calendar.

1. Minutes of the Board of Directors Meeting, April 24, 2019 (W & R)
Recommendation: Approve draft minutes
2. Treasurers Report - Quarter Ending March 31, 2019 (W & R)
Recommendation: Receive & File
3. FO-40 Construction Inspection Contract Amendment (W)
Recommendation: Approve a contract amendment to increase the construction management and inspection contract with Inferred Construction Management Group, Inc. (ICM) by \$50,000 for the completion of construction of the Fair Oaks 40" Pipeline Relining Project

4. Bacon HVAC Contract (R)
Recommendation: Award a construction contract to Aria Electric & Construction (AEC) for the amount of \$79,000 for the Bacon Pump Station HVAC Project and authorizing a total budget of \$87,000 (includes a 10% contingency)
5. Amendment to GM Construction & Development Inc.'s On-Call Contract (R)
Recommendation: Approve a contract amendment to GM Construction & Development Inc.'s On-Call Contract for additional construction services for FY18/19 in the amount of \$62,500; bringing the total contract to approximately \$772,614
6. Lower Granite Bay Pump Station Generator Engine Repair (R)
Recommendation: Approve a contract amendment for the service contract with Cummins Sales and Service for the amount of \$45,554.24 for the additional materials and work to repair the failed standby generator engine at the Lower Granite Bay Booster Pump Station

V. OLD BUSINESS

1. Compensation Study Update (R)
Discuss and potentially modify District compensation levels
2. GM Contract (W & R)
Action: Consider motion to approve amendments to GM Contract
3. SB 998 Requirements Update (R)
Discussion of new requirements for terminating water service to take effect on February 1, 2020

VI. NEW BUSINESS

1. First Reading of Ordinance 9100 – An Ordinance of the Board of Directors of the San Juan Water District Amending Section 9000.5.A of Ordinance No. 9000 of the District Code of Ordinances Respecting Meter Box Clearance Requirements (W & R)
Introduce Ordinance 9100 and read the full text of the proposed ordinance or waive such reading by motion of the Board

VII. BUDGET WORKSHOP

1. Review FY 2019-20 Draft Wholesale and Retail Budget (W & R)

VIII. INFORMATION ITEMS

1. General Manager's Report
 - 1.1 General Manager's Monthly Report (W & R)
Staff Report on District Operations
 - 1.2 Miscellaneous District Issues and Correspondence
2. Director of Finance's Report
 - 2.1 Miscellaneous District Issues and Correspondence
3. Operation Manager's Report
 - 3.1 Miscellaneous District Issues and Correspondence

4. Legal Counsel's Report
 - 4.1 Legal Matters

IX. DIRECTORS' REPORTS

1. SGA
2. RWA
3. ACWA
 - 3.1 Local Government/Federal Affairs/Region 4 - Pam Tobin
 - 3.2 JPIA – Pam Tobin
 - 3.3 Energy Committee - Ted Costa
4. CVP Water Users Association
5. Other Reports, Correspondence, and Comments

X. COMMITTEE MEETINGS

1. Engineering Committee – May 13, 2019
2. Personnel Committee – May 20, 2019
3. Finance Committee – May 21, 2019

XI. UPCOMING EVENTS

1. NWRA – Western Water Seminar
August 7-9, 2019
Portland, OR

XII. CLOSED SESSION

1. Conference with legal counsel--anticipated litigation; Government Code sections 54954.5(c) and 54956.9(d)(4); potential for litigation involving the State Water Resources Control Board's proceedings related to the California Water Fix and the Bay-Delta Water Quality Control Plan Update; and pending litigation; Government Code sections 54954.5(c) and 54956.9(a); *CDWR Environmental Impact Cases*, Case No. JCCP No. 4942.

XIII. ADJOURN

UPCOMING MEETING DATES

June 26, 2019
July 24, 2019

I declare under penalty of perjury that the foregoing agenda for the May 22, 2019 regular meeting of the Board of Directors of San Juan Water District was posted by May 17, 2019, on the outdoor bulletin boards at the District Office Building, 9935 Auburn Folsom Road, Granite Bay, California, and was freely accessible to the public.

Teri Grant, Board Secretary

SAN JUAN WATER DISTRICT

Board of Director's Meeting Minutes

April 24, 2019 – 6:00 p.m.

AGENDA ITEMS

- I. **Roll Call**
- II. **Public Forum**
- III. **Consent Calendar**
- IV. **Old Business**
- V. **Information Items**
- VI. **Directors' Reports**
- VII. **Committee Meetings**
- VIII. **Upcoming Events**
- IX. **Closed Session**
- X. **Open Session**
- XI. **Adjourn**

President Rich called the meeting to order at 6:00 p.m.

I. ROLL CALL

The Board Secretary took a roll call of the Board. The following directors were present: Ted Costa, Marty Hanneman, Ken Miller, Dan Rich and Pam Tobin.

II. PUBLIC FORUM

There were no public comments.

III. CONSENT CALENDAR

All items under the consent calendar are considered to be routine and are approved by one motion. There will be no separate discussion of these items unless a member of the Board, audience, or staff request a specific item removed after the motion to approve the Consent Calendar.

1. Minutes of the Board of Directors Meeting, March 27, 2019 (W & R)

Recommendation: Approve draft minutes

2. LGB & UGB BPS Low Flow Pump Purchase (R)

Recommendation: Approval to purchase two new low flow pump assemblies, one for the Lower Granite Bay Pump Station and one assembly for the Upper Granite Bay Pump Station

Director Hanneman moved to approve Consent Calendar. Director Miller seconded the motion and it carried unanimously.

IV. OLD BUSINESS

1. FY 2018-19 Operations Plan Report Card (W & R)

GM Helliker reviewed the 3rd quarter progress on the FY 2018-19 Operations Plan Report Card. The report card will be attached to the meeting minutes.

He explained that, in the effort to achieve conserved water transfers, an agreement with DWR and Reclamation was made regarding the methodology; however, a water transfer this year will not occur. Ms. Silva informed the Board that staff is reviewing two software packages for use with the Tyler system for payroll processing and electronic timesheets. Mr. Barela informed the Board that the items under Field Services which did not get completed were for last calendar year, as reported in January.

In response to President Rich's question, GM Helliker informed the Board that the Operations Plan and report card will be updated in conjunction with the FY 2019-20 budget.

V. INFORMATION ITEMS

1. GENERAL MANAGER'S REPORT

1.1 General Manager's Monthly Report (W & R)

GM Helliker provided the Board with a written report for March which will be attached to the meeting minutes.

1.2 Miscellaneous District Issues and Correspondence

GM Helliker reported that the April 16th meeting with the general managers regarding the collaboration integration was being rescheduled to May. The group is working on the request for qualifications which will be brought to

the Board in June. The Board discussed the participants of the project and the scope of the project which involves more agencies than just the District and Sacramento Suburban Water District. GM Helliker informed the Board that the meeting in May will finalize the scope and then each agency board will review the scope and make a decision regarding participation.

GM Helliker reported that Folsom Reservoir storage went is 86% full and 119% of average. He reported that precipitation is at 132% of normal and the snow pack is at 157% of average statewide.

GM Helliker reported that the State Water Project allocation is 70% and the CVP allocation is 100%. He stated that the District will probably not use its CVP allocation this year. He informed the Board that since allocations are higher, there will be no capacity to conduct a water transfer this year.

GM Helliker informed the Board that the wholesale customer agencies are working on a shortage policy. He reported that the agencies agreed that an update regarding hydrology and contract allocations will be scheduled annually after the February draft data is reviewed, and then another meeting in April will be scheduled once the data is final. He explained that if a shortage allocation is needed, then a recommendation would be brought to the Board.

GM Helliker informed the Board that he is working with the ACWA workgroup and they were successful in getting the extra questions in the annual report changed to be voluntary; therefore, the required information was submitted regarding water quality, water production, etc.

GM Helliker will send the Board an update on the water quality control plan instead of having the discussion in Closed Session. He informed the Board that the May Board meeting will include the compensation study, the budget workshop, and more information on the collaboration/integration project.

In response to President Rich's question, GM Helliker and Mr. Barela explained that the ordinance regarding meter box clearance is being reviewed and will be brought back to the Board for amendments.

GM Helliker reported that information on the groundwater bank project was sent the Board. The handout titled, "North American Subbasin Groundwater Sustainability Plan Development Activity Status" is related to that project. He will be traveling to Washington DC the week prior to the cap-to-cap event to discuss the topic with committee, congress and senate staff.

Mr. Zlotnick informed the Board that an RFP was issued for the analysis on the 25-year projections of wholesale demand, including treatment and conveyance capacity. The project was implemented after discussions with

PCWA were instigated regarding the District's capacity for future demands. He explained that the analysis will also be used with the next Urban Water Management Plan. The Board discussed the project, the scope of work, and the budget for the analysis.

2. DIRECTOR OF FINANCE'S REPORT

2.1 Miscellaneous District Issues and Correspondence

Ms. Silva reported that a project manager was assigned to the District's SRF application submission and a conference call meeting is scheduled for the first week of May.

3. OPERATION MANAGER'S REPORT

3.1 Miscellaneous District Issues and Correspondence

Mr. Barela reported that he will report on the Meter Replacement Project at the next Board meeting.

4. LEGAL COUNSEL'S REPORT

4.1 Legal Matters

No report.

VI. DIRECTORS' REPORTS

1. SGA

Director Tobin reported that SGA met April 11th and she reviewed a written report which will be attached to the meeting minutes.

2. RWA

Director Tobin informed the Board that the Executive Committee met earlier today. She reported that there are five interviews scheduled for April 26th for the Executive Director position and then the RWA Board will meet on May 2nd.

3. ACWA

3.1 Local/Federal Government/Region 4 - Pam Tobin

Director Tobin reviewed a written report which will be attached to the meeting minutes.

3.2 JPIA - Pam Tobin

No report.

3.3 Energy Committee - Ted Costa

Vice President Costa reported that the Energy Committee will meet at the ACWA Spring Conference.

4. CVP WATER USERS ASSOCIATION

Vice President Costa reported that the CVP Water Users Association met on April 16, 2019. The association is reviewing its bylaws and re-organizing the operations which will be discussed at the annual meeting next year.

5. OTHER REPORTS, CORRESPONDENCE AND COMMENTS

There were no other matters discussed.

VII. COMMITTEE MEETINGS

1. Engineering Committee – April 9, 2019

President Rich reported that the committee met on April 9th and the committee meeting minutes will be attached to the original board minutes. Director Miller voiced concern regarding the timely implementation of the accessibility transition plan. Mr. Barela informed the Board that there are some items in the plan that staff has or will be completing. The Board discussed the plan and would like it on the agenda for approval at the May Board meeting.

2. Finance Committee – April 23, 2019

The committee meeting minutes will be attached to the original board minutes.

VIII. UPCOMING EVENTS

1. 2019 ACWA Spring Conference

May 7-10, 2019
Monterey, CA

2. 2019 Cap To Cap – Metro Chamber

May 4-8, 2019
Washington DC

President Rich called for Closed Session at 7:10 pm.

IX. CLOSED SESSION

1. Public employee performance evaluation involving the General Manager; Government Code sections 54954.5(e) and 54957.
2. Conference to provide District's labor negotiators, Dan Rich and Ken Miller, with direction concerning changes to General Manager's compensation and benefits; Government Code sections 54954.5(f) and 54957.6.

President Rich returned to Open Session at 9:00 pm.

X. OPEN SESSION

There was no reportable action from the closed session.

XI. ADJOURN

The meeting was adjourned at 9:00 p.m.

DAN RICH, President
Board of Directors
San Juan Water District

ATTEST:

TERI GRANT, Board Secretary

The meeting minute attachments are located under Meeting Minutes – *Draft* on the webpage.

STAFF REPORT

To: Board of Directors
 From: Donna Silva, Director of Finance
 Date: May 22, 2019
 Subject: Treasurer’s Report – Quarter Ending March 31, 2019

RECOMMENDED ACTION

This report is for information only and will be filed with the meeting minutes.

BACKGROUND

The purpose of the treasurer’s report is to update the Board and the public on the status of the District’s cash balances and investments, and highlight material changes from one period to another. The scope of this report covers the third quarter of fiscal year 2018-2019, ending March 31, 2019.

The District’s investment objectives are established by the Board approved Investment Policy. The Investment Policy is guided and constrained by the California Government Code. The Board periodically reviews and adjusts the Investment Policy to ensure ongoing compliance with the government code and to maximize investment flexibility as permitted. The current Investment Policy has the following objectives for the portfolio:

1. Safety
2. Liquidity
3. Yield

Attached is the quarterly Treasurer’s Report for the three months ended March 31, 2019.

At December 31, 2018, the end of the previous quarter, the value of the District’s total portfolio was \$24.16 million. Since that time, the value of the District’s portfolio increased by about \$1 million for an ending balance of \$25.15 million as of March 31, 2019. Cash and short-term investments increased by \$189,273. Medium term investments increased by \$666,157 and long-term investments increased by \$125,953.

The funds are currently held as follows:

Cash at Banking Institutions	\$ 3,822,416
Local Agency Investment Fund (LAIF)	12,074,969
PFM Managed Investment Portfolio	<u>9,248,416</u>
	<u>\$ 25,145,801</u>

Distribution of Investments - San Juan Water District

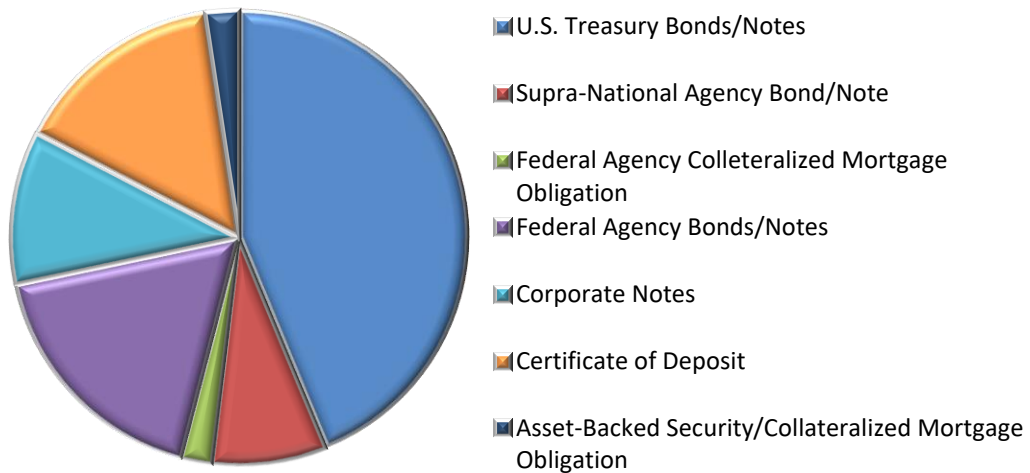

The overall portfolio is diversified with 37% invested in marketable securities (PFM Portfolio), 48% invested in short-term investments that are considered liquid (LAIF) and 15% on deposit with US Bank. Staff, in conjunction with your financial advisors, periodically review the mix of liquid and long-term investments and adjusts the portfolio according to the market conditions and the District’s short term cash needs. Staff made a transfer of \$1,500,000 to LAIF on February 15, 2019.

All securities held are in conformance with those permitted by the District’s Investment Policy. There are sufficient funds to meet the District’s expenditure requirements for the next six months.

The mix and duration of investments are displayed in the following charts:

Mix of Investments - PFM Portfolio

Duration of PFM Portfolio

Continuing the trend from the fourth quarter of 2018, interest rates decreased while the equity market rebounded, credit spreads tightened and volatility sought to decrease. Concerns about a possible recession arose due to the U.S. Treasury yields with maturity beyond one year falling 0.20% to 0.30% along with the 3-month to 10-year yield curve inverting temporarily. With the Feds now on hold for future rate hikes and slower growth prospects our defensive bias were re-strategized to be in line with the benchmark. While the fourth quarter resulted in Treasuries being the best performing sector, the first quarter's rebound generated strong excess returns. The District's portfolio managers will continue to maintain a neutral duration posture in the portfolio relative to the benchmark. Diversification among investment grade sectors with a tilt towards higher-grade corporate bonds is the recommendation for this slow in economic growth period.

The portfolio is performing well and continues to outperform the benchmark (Bank of America Merrill Lynch "BAML" 0-5 year Treasury Index) on a current and historical basis.

Total Returns – period ending March 31, 2019

	Duration (years)	Quarter Ending 03/31/2019	Past Year	Since Inception
San Juan Water District	2.11	1.27%	3.29%	1.53%
BAML 0-5 Year Treasury Index	2.09	1.10%	2.96%	1.23%

STAFF REPORT

To: Board of Directors

From: Rob Watson, Engineering Services Manager

Date: May 22, 2019

Subject: Fair Oaks 40" Pipeline Relining Project
Construction Inspection Services Contract Amendment

RECOMMENDED ACTION

Staff recommends a motion to approve a contract amendment to increase the construction management and inspection contract with Inferrera Construction Management Group, Inc. (ICM) by \$50,000 for the completion of construction of the Fair Oaks 40" Pipeline Relining Project. The staff recommendation was reviewed by the Engineering Committee, which recommends approval by the Board of Directors.

BACKGROUND

Upon removing the existing mortar lining on the Fair Oaks 40" pipeline, the amount of pin holes that were discovered that required patch plate welding repairs was significantly more than what was originally anticipated during design. The design assumed there would be between 30 to 50 spot repair areas for the contractor to weld up or install a patch plate.

In total, there were 245 more pin holes found in the north section and 106 more pin holes in the south section than what was included in the Bid. As a result, the Contract time was extended for the Contractor to complete the additional repairs, and consequently additional inspection was required to locate each pin hole, as well as inspect each weld repair after it was completed.

All of this work is being done from inside the 40-inch diameter pipeline.

FINANCIAL CONSIDERATIONS

The Contract with ICM is a Time and Expenses Agreement with a not to exceed maximum.

The Project was planned, and budgeted for in Fiscal Year 2018-2019, as part of the District's approved Wholesale CIP. And the project will be completed in the FY 18/19 budget year. Adequate funds are available in the remaining combined project construction and inspection contingency balances to cover the additional inspection costs.

The original BOD authorized construction management and inspection contract with ICM was for the amount of \$180,680, with a contingency of \$18,070 (10%) for a total authorized budget of \$198,750. Staff is recommending increasing the ICM contract by \$50,000 to cover the additional inspection. Inclusive of the prior approved 10% contingency this amendment will increase the total authorized inspection services budget by an additional \$31,930 (16%). This will result in a total ICM contract not to exceed amount of \$230,680 at the close of the project.

ICM has estimated that their total added cost for the additional inspection services will be approximately \$46,876 (or \$133 per plate patch).

It should also be noted that \$6,708 will be recovered from the Contractor for overtime inspection that was required due to the Contractor working on Saturdays as well as extended hours during normal weekday periods.

STAFF REPORT

To: Board of Directors
From: Tony Barela, Operations Manager
Date: May 22, 2019
Subject: Bacon Pump Station HVAC Project

RECOMMENDED ACTION

Staff recommends a motion to award a construction contract to Aria Electric & Construction (AEC) for the amount of \$79,000 for the Bacon Pump Station HVAC Project and authorizing a total budget of \$87,000 (includes a 10% contingency). The staff recommendation was reviewed by the Engineering Committee, which recommends approval by the Board of Directors.

BACKGROUND

The Bacon Pump Station (BPS) is located east of the District's main site. The BPS building houses three different pump systems for three distinct pressure zones (PZs): 1) Bacon PZ, 2) ARC-North PZ, and 3) Sierra PZ. The Bacon and Sierra PZs are the two largest pressure zones in SJWD's Retail Service Area (RSA). This BPS is considered the backbone supply source for the RSA as it conveys water to the most customers in the District.

Other than fans, the existing station does not have any climate control within the building. The station has a history of becoming hot in the summer time, causing the variable frequency drives to trip (shut down). When this occurs, pumps are disabled and the pump team is notified to respond to the station to make adjustments and/or manually reset the pumps. Historically, several portable cooling systems have been installed on the floor during heatwaves to prevent overheating of the electrical power and control systems.

Additionally, due to historic radio communication issues, a new fiber optics connection was recently installed from "Central" (the Water Treatment Plant control room) to the Bacon BPS control system. This connection eliminated the communication issue and has provided a secure connection for operations. However this new fiber equipment installed at the BPS is temperature sensitive and requires climate control to prevent overheating and condensation damage.

On March 1, 2019, the District requested proposals for engineering and construction services for the design-build of a new HVAC system at the pump station. Eight (8) firms attended the pre-Bid meeting. Proposals were received on April 12, 2019 from the following two (2) firms:

- Aria Electric and Construction (AEC) - \$79,000
- Norwood Construction Services - \$151,000

After review of the proposals and supplemental information, and a meeting with Aria Electric to confirm the project, staff is recommending that AEC be awarded the design-build project.

FINANCIAL CONSIDERATIONS

This project will overlap FY18/19 and FY19/20. A total of \$94,300 is budgeted to complete the design and construction phase of this project. Project costs are 100% Retail.

STAFF REPORT

AGENDA ITEM IV-5

To: Board of Directors

From: George Machado – Field Services Manager

Date: May 22, 2019

Subject: Amendment to GM Construction & Development Inc.'s On-Call Contract (#15-53) for additional construction services

RECOMMENDED ACTION

Staff recommends amending the GM Construction & Development Inc.'s On-Call Contract for additional construction services for FY18/19 in the amount of \$62,500; bringing the total contract to approximately \$772,614. The staff recommendation was reviewed by the Engineering Committee, which recommends approval by the Board of Directors.

BACKGROUND

On June 30, 2015, the Board approved a contract with GM Construction & Development Inc. for fiscal year 2015-2016 in the amount of \$135,138. The contract contained provisions for three one year extensions. The current contract is valid through June 30, 2019.

The following detail summarizes our changes and proposed amendment:

Contract/ Amendment	Date	Dollar Adjustment	Duration Adjustment	Completion Date
Original Contract	June 30, 2015	\$135,138	357 Calendar Days	June 30, 2016
Amendment 1	July 1, 2016	\$0	15 Calendar Days	July 15, 2016
Amendment 2	July 16, 2016	\$99,555	350 Calendar Days	June 30, 2017
Amendment 3	March 8, 2017	\$120,000	0 Calendar Days	June 30, 2017
Amendment 4	July 1, 2017	\$147,089	365 Calendar Days	June 30, 2018
Amendment 5	July 1, 2018	\$208,332	365 Calendar Days	June 30, 2019
Proposed Amendment 6	May 22, 2019	\$62,500	0 Calendar Days	June 30, 2019
Proposed Revised Contract		\$772,614		June 30, 2019

The FY18/19 budget is nearly expended with approximately \$31,400 remaining. Change Order No. 6 is attached and shows the anticipated remaining work to be completed by GM Construction & Development Inc. within FY18/19.

FINANCIAL CONSIDERATIONS

The existing GM Construction & Development Inc. budget amount for FY18/19 is \$208,332. The proposed amendment of \$62,500 for additional services will bring the current contract and authorized FY18/19 budget to \$772,614 and \$270,832, respectively.

It should be noted that the Capital Improvement Budget contained \$50,000 for ARV Repairs for FY18/19. This budget will not be expended this fiscal year and, therefore, offsets approximately 80% of the proposed contract amendment. Project costs are 100% Retail.

Change Order No. 6

Contractor: GM Construction & Development Inc.
 6337 32nd Street
 North Highlands, CA 95660

Project Name: Annual T&M Contract #15-53

Date: May 22, 2019 **Project Manager:** George Machado

Upon mutual acceptance and execution of this document by San Juan Water District, hereinafter referred to as "District," and GM Construction Development Inc. hereinafter referred to as "Contractor," Contractor is hereby directed to make the following described changes from the plans and specifications or do the following described work not included in the plans and specifications of this contract. All new work shall be done in accordance with the applicable provisions of the plans and specifications, except as specifically modified by this contract change order.

NOTE: This change will be in effect after approved by the District.

DESCRIPTION OF THE CHANGES:

ITEM #	DESCRIPTION	CREDIT/COST
1	Contract change order 6 is as follows : Authorizes a contract increase of \$62,000, the revised contract total is \$772,614. The contract available balance for FY 2018-2019 is \$282,500 (\$62,500 + \$220,000). Revised price schedule below FY18-19	\$62,500.00
GM Construction Service Installation Description		Pricing FY 2018-2019/ Install
	ARV's Replacement (5) (Leaking):	\$ 41,800.00
	Backflow Replacement (1) (Valve Failure):	\$ 4,100.00
	Hydrant Replacement (1) (Leaking):	\$ 13,000.00
	Service replacements (5) (2 Leaking and 3 Prospective):	\$ 35,000.00
	Less Remaining Budget:	\$ (31,400.00)
	Amendment Amount:	\$ 62,500.00
NET CHANGE ORDER ADJUSTMENT		\$62,500.00

CONTRACT TIME SUMMARY:

	Days	Completion Date
Original Contract:	357	June 30, 2016
Current Contract:	1095	June 30, 2019
This Change Order (365 Calendar Days):	0	June 30, 2019
Revised Contract Total Days:	1452	

ORIGINAL CONTRACT AMOUNT	\$	135,138.00
Net change by previous change orders	\$	574,976.00
Contract sum prior to this change order (1-5)	\$	710,114.00
Contract adjustment by this change order (6)	\$	62,500.00
NEW CONTRACT AMOUNT (including all change orders)	\$	772,614.00

Acceptance of this Change Order constitutes acceptance of the Change Order as full and complete satisfaction of any direct or indirect additional costs incurred to you in connection with performance of the changed work. The time for performance of the contract will be extended by **0 calendar days** by reason of the performance of the work required by this Change Order. Except as hereinabove expressly provided, Contractor further agrees that the performance of the work specified in this Change Order or the rescheduling of other project work made necessary by this Change Order, shall not constitute a delay which will extend the time limit for completion of the work as said term is used in the Contract between the District and Contractor for the project.

We, the undersigned contractor, have given careful consideration to the change proposed and hereby agree. If this change order is approved, we will provide all equipment, furnish all materials, except as may otherwise be noted above, and perform all services necessary for the work above specified, and will accept as full payment therefor the prices shown above.

STAFF REPORT

To: Finance Committee
From: George Machado, Field Operations Manager
Date: May 21, 2019
Subject: LGB BPS Standby Generator Engine Repair – Contract Amendment

RECOMMENDED ACTION

Staff recommends a motion to approve a contract amendment with Cummins, Inc. for \$45,554.24 for the repair of the failed standby generator engine at the Lower Granite Bay Booster Pump Station.

BACKGROUND

The Lower Granite Bay generator engine suffered a failure on 12/17/18. The failure was identified as a blown head gasket for the Number 6 Cylinder. The cause of the failure was evaluated and identified as most likely attributed to coolant entering the intake manifold and being carried into the cylinder resulting in hydrolocking and subsequent head gasket failure.

On March 27, 2019 the Board approved executing a contract with Cummins, Inc., and on 8 April 2019 a contract was executed for \$60,989.09 for the repair of the engine.

The generator engine was subsequently removed and transported to the Cummins facility in West Sacramento. Cummins technical personnel then took apart the engine to begin the repairs. The first action was to inspect the engine part by part to confirm the cause and extent of the failure, and to verify which parts were serviceable and could be used in the engine rebuild. During the inspection, it was discovered that additional parts, repairs and machining work will need to be done before the engine repair can be completed and put back into service.

This engine is for a standby/emergency generator for a pump station and therefore needs to be repaired as soon as possible.

FINANCIAL CONSIDERATIONS

The existing contract with Cummins, Inc. is a lump sum contract for \$60,989.09 and the amendment would be for an additional \$45,554.24 for a total contract amount of \$106,543.33. This work and the cost was not anticipated and was not planned for in the FY 2018/19 budget. Funding for this cost would be provided from Retail reserves.

It should also be noted that Staff is pursuing, and will continue to seek recovery for the cost of this repair from other responsible parties after the failure analysis and associated documentation is completed.

STAFF REPORT

To: Personnel Committee

From: Paul Helliker, General Manager
Donna Silva, Director of Finance

Date: May 20, 2019

Subject: Compensation Study

RECOMMENDED ACTION

Review results of Compensation Study and related analysis and recommend to the Board of Directors the desired market position for the San Juan Water District's salary schedule.

BACKGROUND

Board policy #HR-6.5 Employee Compensation states that it is the intention of the District to recruit and retain talented, results-driven employees to support the District's mission, values and goals.

The policy requires periodic Compensation Studies (approximately every four years or sooner as deemed necessary or as directed by the board). The last Compensation Study was done in 2015. Since it has been four years since the last compensation study, the District hired Bryce Consulting to perform a new study. The study was done in conjunction with the Carmichael Water District in order to realize cost savings since both District use similar comparator agencies.

The policy provides direction on the process and methodology to be used for Compensation Studies. The last Compensation Study set the District's top end of the salary schedule at 10% above market average in accordance with the stated market position in the Compensation Policy at that time. Since that time, the Board has amended the Compensation Policy to state that the target position will be set by the Board after reviewing the survey results, but that it will be at least equal to market average as calculated in the survey.

While the Compensation Policy says that the target market position will be at least equal to market average, staff recommends the use of the market median as opposed to the mean or "average". Outliers at either end of the market can skew the calculation of the average, up or down. Using the "median" as opposed to the "average" means that the District positions its salary schedule to relate to the compensation schedule of the District that is in the middle of the range of comparator agencies. This removes the effect of strong outliers.

CURRENT STATUS

The compensation study performed by Bryce Consulting was prepared using the parameters contained within the Board’s Compensation Policy and the comparator agencies selected and approved by the Board at their meeting on February 25, 2019.

The study, attached to this staff report, shows that on average, for all of the survey classifications, the District is 11.20% above the market for total compensation when compared to the labor market median 8.74% above market for total compensation when compared to the labor market mean, “or average”.

There are significant differences among the job classifications. For example, while the District’s total compensation as a whole is 11.20% above the market median, the individual classifications range from 6.16% below market median to 26.78% above market median.

The chart below shows the number of position classifications from the survey that would have ranges falling above or below three different potential market positions: market median, 5% above market median and 10% above market median.

Market Position Target	# Classifications Above Range	# Classifications Below Range
Market Median	28	1
5% above Median	23	6
10% above Median	15	14

Compensation ranges are generally set to recruit and retain talented employees. The Board has historically set compensation at some amount above the market average in recognition that job classifications, responsibilities, assigned duties and compensation ranges are not collectively bargained. By setting the top of the salary range above average, the Board signals to employees that the District’s expectations are above average, provides flexibility to management and staff to assign duties outside of rigid job descriptions, provides opportunities for employees to take on additional challenges outside their defined job duties, and provides incentive to employees to perform above average to reach the top of pay ranges. For historical context....in 2001 the Board set ranges at the 75th percentile. The 2006 compensation study resulted in top end salaries at 10% over average as did the 2015 compensation study.

As dictated by the Compensation Policy, the annual budget for salaries and benefits is prepared using the CalPERS salary assumptions table. If the Board chooses to retain its previous market position of 10% above market, there would

be room in the budget for a COLA and a small merit increase for eligible employees, however the Board would need to approve additional funding if it desired the bonus program to be funded. The General Manager does not recommend immediate pay adjustments as a result of implementing the new salary schedules, unless an employee's salary ends up below the bottom of the new range. Additionally, any employee whose current compensation range is above the target set by the Board would have their compensation level frozen, and a new compensation range would be adopted for those classifications, which would reflect the target. Pay will be adjusted as usual using a combination of COLA's and merit pay adjustments. A COLA may be awarded to employees whose pay is not frozen and merit pay increases may be awarded in February based on performance and based upon available room in the new range.

Once the Board identifies the desired market position, Bryce Consulting, in conjunction with District staff, will propose a new salary schedule for Board approval. As just noted, that salary schedule will likely include two ranges for many positions. Current employees in a range that is currently above the new range, will not be eligible for COLA's or merit pay increases until their compensation falls within the new adjusted range. Any new hires would be hired into the newly adjusted range. The proposed salary schedule will also be adjusted to avoid discrepancies between positions that have comparable duties and levels of responsibilities, and to avoid internal compaction between compensation levels of positions in particular career ladders or chains of command.

SECTION I - PROJECT OVERVIEW

Bryce Consulting was retained by the San Juan Water District to conduct a comprehensive compensation study of District classifications. This report presents the compensation survey results and includes:

- Section I Project Overview
- Section II Compensation Survey Parameters
- Section III Compensation Survey Results

STUDY OBJECTIVES

The study consisted of the following objectives:

- Research and recommend an appropriate labor market.
- Collect and analyze base salary and benefit data for the survey classifications.
- Prepare and present a comprehensive report outlining the methodology and results.

SECTION II – COMPENSATION SURVEY PARAMETERS

This section of the report presents the compensation survey parameters and includes:

- Selection of labor market employers and survey classes
- Survey scope
- Survey methodology

SURVEY EMPLOYERS

The overall objective in selecting survey employers is to define as accurately as possible the District's "Labor Market." A labor market consists of those employers with whom the District might compete with for employees. The criteria typically utilized in identifying those employers include the following:

- **EMPLOYER SIZE** - As a general rule, the more similar employers are in size and complexity, the greater the likelihood that comparable positions exist within both organizations. Specifically, agencies of similar size to the District are likely to have departmental structures and organization of positions more similar to the District than organizations that are significantly larger or smaller in size.
- **NATURE OF SERVICES PROVIDED** - As a general rule, similar organizations are selected as survey employers, because they provide similar services. This is important for the following reasons:
 - Employers who provide similar services are most likely to compete with one another for employees.
 - These employers are most likely to have comparable jobs.
 - These employers are most likely to have similar organizational characteristics.
- **GEOGRAPHIC PROXIMITY** - Geographic proximity is another factor utilized in identifying an appropriate labor market. This factor is particularly important because it identifies those employers that the District must directly compete with to recruit and retain quality staff.

LABOR MARKET

Table 1 displays the survey agencies that were recommended and approved by the Board of Directors. All of the agencies surveyed participated in the process.

Agency	Operating Budget (millions)	FTE	Connections	Water Treatment	Water Distribution	Miles from San Juan
San Juan Water District	\$9.6 Wholesale \$11.5 Retail \$21.1 Total	47	10,673	Yes (150 mgd) Grade 5	Yes	----
Carmichael Water District	\$7.8	27	11,600	Yes (17 mgd) Grade 4	Yes	19
Citrus Heights Water District	\$12.2	35	19,600	No	Yes	10
City of Fairfield	\$95.7 (GF) \$30 (water fund)	558 (total) 55 (water)	30,711	Yes (70 mgd) Grade 5	Yes	69
City of Folsom	\$87 (total GF) \$12.5 (water fund)	466 53.25 (water/wastewater)	20,648	Yes (50 mgd) Grade 5	Yes	10

Stockton East Water District	\$21.8	37	Wholesale	Yes (40 mgd) Grade 5	Wholesale	74

SURVEY CLASSES

Survey classes, as displayed in **Table 2**, are generally selected utilizing the following criteria:

- The survey classifications should have a significant relationship to other classes in their occupational group. This ensures that they will make good reference points in relating and establishing salaries for other classes within their occupational group.
- They should be reasonably well known and able to be clearly and concisely described. This enables the employer to more easily communicate with survey employers in establishing accurate comparabilities for the survey classes.
- They should be classes for which counterparts can readily be found in other agencies so that sufficient compensation data can be gathered.

TABLE 2 SURVEY CLASSIFICATIONS
Accountant
Accounting Technician II

Senior Engineer
Water Treatment Plant Manager
Water Treatment Plant Operator II

SURVEY SCOPE

The scope of the survey included the labor market agencies previously presented. The data collected for each survey class included:

- Title of each comparable class
- Minimum and maximum monthly salary
- Cash add-ons to base salary including:
 - ◆ Employer pick-up of the employee contribution for retirement for new “classic” employees
 - ◆ Auto allowance
 - ◆ Deferred compensation contribution made by the employer
 - ◆ Longevity pay at year 10
 - ◆ Certification/Education Pay
- Employer contributions for insurances (cafeteria, health, dental, vision, life, and long-term disability)
- Social Security
- Employer contribution to Retiree Health Savings Plan
- Amount the employee pays towards the employer’s portion of retirement
- Cost of living information including date and amount of next increase
- Retirement practices including plan, employer’s share, benefit, and formula
- Leave benefits
- Retiree health benefits

SURVEY METHODOLOGY

The survey methodology utilized by Bryce Consulting included:

- The agencies’ websites were utilized to collect salary and benefit data and to compare job descriptions, where available.
- The consultant followed up the survey agencies to collect additional information and seek clarification.

In addition to the collection of base salary and benefit information, careful efforts were made to analyze the full-range of duties and requirements of the job classes determined to be comparable to the District’s classes. This included the collection of:

- Reporting relationships
- Functional areas of responsibility

- The class's relationship to other classes in the series

For each classification using maximum base salary, total cash, and total compensation as the basis of comparison, the District's position was compared to the labor market to determine the percentage the District is above or below the labor market median and mean. The data is effective April 2019.

SECTION III – COMPENSATION SURVEY RESULTS

This section of the report presents the compensation survey findings including base salary, total cash, and total compensation. In addition, miscellaneous benefit data is presented including cost of living information, retirement practices, retiree health benefits, and leave benefits.

As indicated in the previous section, the survey involved the collection of compensation information for each of the survey classes from the labor market employers identified. **Table 3** displays the comparability for each survey classification.

BASE SALARY SURVEY RESULTS

The data has been organized into a series of tables that summarize the District’s relationship to the labor market for each class. The detailed market compensation survey datasheets are presented in **Appendix A** of this report. **Table 4** summarizes for each classification how the District’s base salaries compare to the labor market. The following data is presented:

- Title of the District’s classification
- The District’s current maximum monthly base salary for each classification
- The labor market median for maximum monthly base salary
- Percentage the District’s maximum base salary is above or below the median of the labor market
- The labor market mean for maximum monthly base salary
- Percentage the District’s maximum base salary is above or below the mean of the labor market

TOTAL CASH SURVEY RESULTS

Total cash represents the maximum base salary plus the agencies' contribution towards the employees' share of retirement, auto allowance the agencies' contribution towards deferred compensation, longevity pay, up to and including year 10, and education/certification pay. **Table 5** displays how the District compares to the labor market with respect to total cash for each classification. The following data is presented:

- Title of the District's classification
- The District's current total cash for each classification
- The median of the labor market for total cash
- Percentage the District's total cash is above or below the median of the labor market
- The mean of the labor market for total cash
- Percentage the District's total cash is above or below the mean of the labor market

TOTAL COMPENSATION SURVEY RESULTS

Total compensation represents the elements included in total cash plus the agencies’ contribution towards a cafeteria plan, health, dental, vision, life insurance, long-term disability, retiree health savings plan, Social Security, minus the employers’ share of retirement paid by the employee. **Table 6** displays how the District compares to the labor market with respect to total compensation. The following data is presented:

- Title of the District’s classification
- The District’s current total compensation for each classification
- The median of the labor market for total compensation
- Percentage the District’s total compensation is above or below the median of the labor market
- The mean of the labor market for total compensation
- Percentage the District’s total compensation is above or below the mean of the labor market

RELATIONSHIP TO THE MARKET

On average, for all of the survey classifications, the District is 7.77% above market for base salary, 3.21% above of the market for total cash, and 11.20% above the market for total compensation when compared to the labor market median. The District is, on average, 6.04% above market for base salary, 1.60% above market for total cash, and 8.74% above market for total compensation when compared to the labor market mean.

MISCELLANEOUS BENEFIT DATA

The tables provided in **Appendix B** present the miscellaneous benefit data that was collected including cost of living information, retirement practices, short-term disability, leave benefits and retiree health

benefits.

COST OF LIVING INCREASE – APPENDIX B - TABLE 1

With respect to cost of living, the District's last increase was in July of 2018 in the amount of 2.6%. The District does not have a future increase scheduled at this time.

With respect to the responding agencies, nine of the agencies received an increase in early 2019, depending on bargaining unit, ranging from 2.2% to 5%. Four of the agencies are scheduled to receive an increase later in 2019, depending on bargaining unit, ranging from 2% to 4%.

RETIREMENT PRACTICES – APPENDIX B - TABLE 2

The District has a CalPERS retirement plan with a benefit of 3% @ 60 and a formula of Highest Three Year Average for Classic tier employees.

Of the responding agencies, 13 have a CalPERS retirement plan and one is a 1937 Act Agency. Eight agencies have a benefit of 2% @ 55; three have a benefit of 2.7% @ 55; two have a benefit of 2.5% @ 55; and one has a benefit of 1.92% @ 60. Eight have a formula of Highest 3 Year Average and three have a formula of Single Highest Year.

EDUCATION/CERTIFICATION PAY – APPENDIX B TABLE 3

The District does not provide education or certification pay. Eight of the survey agencies provide certification and/or education pay with the amount varying by classification. The details are provided in Table 3 of Appendix B.

LEAVE BENEFITS – APPENDIX B – TABLES 4 - 5

The District offers 96 hours of vacation leave at year 1; 120 hours at year 4; 144 hours at year 8; 168 hours at year 11; 192 hours at year 16; 216 hours at year 21; and 240 hours at year 26. The District provides 12 days of sick leave with an unlimited accrual, recognizes 12 holidays, and provides 40 hours of administrative leave for exempt classification; however, the employee is required to track their time to show they have worked at least 40 hours over 80 per pay period.

Two of the survey agencies have annual leave whereby vacation and sick leave are combined. Of those with separate leave banks, the labor market average is 79 - 95 hours at year 1, depending on bargaining unit; 103 - 116 hours at year 4; 132 -140 hours at year 8; 153 - 161 hours at year 11; 175 – 186 hours at year 16; 195 – 199 hours at year 21; and 199 – 211 hours at year 26. The majority of the survey agencies provide 12 days of sick leave with 10 providing an unlimited accrual. The labor market average for holidays is 12 with 13 agencies providing administrative/management leave with the amounts varying by agency and classification.

RETIREE HEALTH BENEFITS – APPENDIX B – TABLE 6

The District does not contribute to a retiree health savings account but does contribute to post employment retiree health benefits with 50% of the cost paid by the District with 10 years of service and an additional 5% for each additional year of service up to 100% with 20 years of service.

Five of the agencies contribute to a retiree health savings account ranging from a flat dollar amount of \$25 per pay period to \$100 per month and one providing 1.5% of salary. Eight agencies contribute to post employment retiree health benefits ranging from the PEMCHA minimum to 100%, depending on years of service.

AGENDA ITEM V-2

AMENDMENT NO. 3 TO AGREEMENT WITH GENERAL MANAGER BETWEEN SAN JUAN WATER DISTRICT AND PAUL HELLIKER

This Amendment No. 3 to the January 11, 2017 agreement between the San Juan Water District (“District”) and Paul Helliker (“Mr. Helliker”) concerning Mr. Helliker’s employment as General Manager of the District is made effective as of May 22, 2019, in Granite Bay, California.

RECITALS:

- A. On January 11, 2017, District and Mr. Helliker entered into an agreement for the District’s employment of Mr. Helliker as General Manager of the District (“Agreement”); and
- B. The District and Mr. Helliker have negotiated and agreed to amend the Agreement to increase Mr. Helliker’s salary and to change certain terms in the Termination provision of the Agreement as approved by the Board of Directors in an open session of a noticed public meeting on May 22, 2019, and as set forth in this Amendment No. 3.

AGREEMENT:

- 1. Amendment of Section 6 of the Agreement. Subdivision (a) of Section 6 of the Agreement concerning the Mr. Helliker’s salary is amended and replaced in full as follows:
 - a. During the term of this Agreement, Mr. Helliker will be paid a salary in the amount of \$191,590 per year (“Base Salary”). The District will pay Mr. Helliker his Base Salary in accordance with the pay periods established for all District employees. This Base Salary becomes effective as of March 6, 2019.
- 2. Amendment of Section 8 of the Agreement. Subdivision (d) of Section 8 of the Agreement concerning termination of the Agreement is amended and replaced in full as follows:
 - d. By the District, without cause, upon giving to Mr. Helliker written notice of immediate termination and payment of severance pay in a maximum amount equal to Mr. Helliker’s then-monthly salary multiplied by 5 months, consistent with, and as may be limited by, the provisions of Government Code sections 53260 through 53264. Notwithstanding the provisions of any District rule, regulation, policy, procedure or practice

to the contrary, upon termination of Mr. Helliker's employment, whether with or without cause, Mr. Helliker will not be entitled to any compensation, damages or other monetary award except as specifically authorized by this Agreement.

3. Effect on Agreement. Except as specifically provided herein, the Agreement, and each of its terms and conditions, shall remain in full force and effect and are incorporated in full herein by this reference.

STAFF REPORT

To: Board of Directors

From: Lisa Brown, Customer Service Manager

Date: May 22, 2019

Subject: First Reading of Ordinance 9100 – An Ordinance of the Board of Directors of the San Juan Water District Amending Ordinance No. 9000 of the District Code of Ordinances

RECOMMENDED ACTION

Introduce “Ordinance No. 9100 of the Board of Directors of the San Juan Water District Amending Ordinance No. 9000 of the District Code of Ordinances” and read the full text of the proposed ordinance or waive such reading by motion of the Board.

BACKGROUND

Ordinance 9000.05 “Admittance of District’s Employees to Customers’ Premises” sets forth the conditions by which District employees shall have the right of entry and access to Customer’s premises. Section A discusses clearance required for water meters and other water appurtenances.

Currently, Section A reads:

- A. Testing, changing or reading water meters installed, maintained and operated by the District. Notice is not required for the activities described in this Section 9000.05.A. The customer shall maintain unrestricted and visible access to the water meter and other water appurtenances (e.g. fire hydrants, air release valves, etc.) at all times. All trees, shrubs, or other obstacles must be maintained no closer than two feet from the edge of the meter box.

It is staff’s recommendation to update Section A as follows:

- A. Testing, changing or reading water meters installed, maintained and operated by the District. Notice is not required for the activities described in this Section 9000.05.A. To ensure the safety of employees and protect water system infrastructure, the customer shall maintain unrestricted and visible access to any water equipment and related water appurtenances (e.g. water meter, fire hydrants, air release valves, etc.) at all times. This includes, at a minimum, seven feet of clearance above the equipment and one foot around where only decorative ground cover is permissible (gravel, bark, mulch, grass, etc.) to allow a person to walk fully around the equipment and stand upright on or near the equipment without obstruction. No trees, shrubs, or other obstacles with expansive/invasive root systems shall be planted within two feet from the edge of the equipment. The General Manager, or his/her designee, may determine if the clearance meets the

intent of the ordinance. If access is deemed to be out of compliance with this ordinance, the customer is required to remove or modify the obstruction and/or reimburse the District for any costs incurred to clear the equipment on the customer's behalf. Service may be discontinued if permanent, safe accessibility is not provided.

These modifications provide additional clarification to the current language on what type of planting material and where planting material can be located around District appurtenances. It also provides the District the authority to gain reimbursement for any costs incurred while clearing any appurtenance on the customer's behalf.

PROCESS

The District must follow a multi-step process to adopt or amend an ordinance. The first step, happening at this meeting of the Board, is the introduction of the proposed ordinance. The full title of the ordinance must be read. The full text of the ordinance also must be read, unless such reading is waived by motion approved by a majority vote of the Board.

At least 5 days before the ordinance is adopted the Board Secretary must publish a summary of the ordinance in a newspaper published in both Sacramento and Placer Counties (the Sacramento Bee). The full text of the ordinance must be posted at the District office. Staff will bring the ordinance to the Board for approval at the June 26, 2019 Board Meeting. Within 15 days after adoption, the Board Secretary must publish a summary of the adopted ordinance. This summary must include the names of Board members who voted for or against. The ordinance will take effect 30 days from the date of final passage.

Current Ordinance 9000

ORDINANCE NO. 9100

**AN ORDINANCE OF THE BOARD OF DIRECTORS OF
THE SAN JUAN WATER DISTRICT AMENDING ORDINANCE NO. 9000
OF THE DISTRICT CODE OF ORDINANCES**

The Board of Directors of the San Juan Water District ordains as follows:

Section 1. Purpose and Authority. The purpose of this ordinance is to revise the District Water Systems provisions contained in the District's Code of Ordinances to provide additional clarification on what type of planting material and where that material can be located around District equipment. It also provides the District the authority to gain reimbursement for any costs incurred while clearing any equipment on the customer's behalf. This ordinance is adopted pursuant to Government Code sections 54202, 61060, 61063, and other applicable law.

Section 2. Amendments. Ordinance No. 9000 (District Water Systems) of the District Code of Ordinances is amended as follows:

A. Section 9000.05.A is amended to read as follows:

9000.05.A Testing, changing or reading water meters installed, maintained and operated by the District. Notice is not required for the activities described in this Section 9000.05.A. To ensure the safety of employees and protect water system infrastructure, the customer shall maintain unrestricted and visible access to any water equipment and related appurtenances (e.g. water meters, fire hydrants, air release valves, etc.) at all times. This includes, at a minimum, seven feet of clearance above the equipment and one foot around where only decorative ground cover is permissible (gravel, bark, mulch, grass, etc.) to allow a person to walk around the equipment and stand upright on or near without obstruction. No trees, shrubs, or other obstacles with expansive/invasive root systems shall be planted within two feet from the edge of the equipment. The General Manager, or his/her designee, may determine if the clearance meets the intent of the ordinance. If access is deemed to be out of compliance with this ordinance, the customer is required to remove or modify the obstruction and/or reimburse the District for any costs incurred to clear the equipment on the customer's behalf. Service may be discontinued if permanent safe accessibility is not provided.

Section 3. Effective Date. This ordinance shall take effect 30 days after its adoption.

Section 4. Publication. Within 15 days from the date of adoption of this ordinance, the District Secretary shall publish it once in a newspaper of general circulation published and circulated within the District.

INTRODUCED by the Board of Directors on the 22nd day of May 2019.

PASSED AND ADOPTED by the Board of Directors of the San Juan Water District at a regular meeting on the 26th day of June 2019 by the following vote:

AYES:

NOES:

ABSENT:

Attest:

Dan Rich
President, Board of Directors

Teri Grant
Board Secretary

Ordinance Type	District Operations	Date Adopted	June 28, 2006
Ordinance Number & Title	9000 - District Water Systems	Date Amended	June 25, 2008

The design, materials, construction and installation of all water facilities and improvements under this Code shall be in accordance with the District’s standards, specifications, and requirements as the same may be amended from time to time.

9000.01 Control and Operation of Systems

All District water systems and appurtenances thereto shall be under the management and control of the General Manager. No Person, other than an employee or agent of the District, shall have any right to operate any part of a District water distribution system. Any Person who tampers or interferes with any part or component of the system, or causes or permits any act of tampering or interfering with the system, shall be liable for any injury or damage caused thereby or resulting there from.

9000.02 Installation of Water Meters and Service Connections

Installation of water meters and connection to the District water system shall be in accordance with District standards, specifications, and requirements and shall be inspected and unlocked by District personnel.

Upon payment of the applicable fees in accordance with Section 14000, the District will furnish and install a service connection of suitable capacity from its main to the curb line, or, at the election of the District, to the property line of any Premises for which a connection to the District water system is requested, provided such Premises abuts upon a public street, existing water main right-of-way, or a private service easement on which a water main of the District water system is located.

9000.03 Turn-On or Turn-Off of Water Service

Except as otherwise specifically authorized by the District, only District employees shall be permitted to turn water on or off at any service connection, valve, hydrant of the District water system or to operate any device that will regulate the flow of water within the system.

9000.04 Inspection of Customer Premises

By applying for or receiving water service from the District, each Customer irrevocably licenses and permits the District and its authorized employees, contractors and agents to enter upon the Customer’s Premises at all reasonable times for authorized purposes authorized by this Code and applicable laws.

Authorized District personnel shall have unrestricted access at reasonable hours to all Premises to which the District is furnishing water in order to inspect the supply system, meters or measuring devices, and backflow prevention assemblies, and to determine whether the Customer is complying with the rules, regulations and Codes of the District and applicable law concerning taking, using or wasting water.

9000.05 Admittance of District's Employees to Customers' Premises

After giving reasonable notice, except in situations involving risk to life or property, authorized inspectors, agents and employees of the District shall have the right of entry and access at all reasonable times in, to and upon Customers' buildings (other than the interior of residential buildings), grounds and Premises for the purpose of:

- A. Testing, changing or reading water meters installed, maintained and operated by the District. Notice is not required for the activities described in this Section 9000.05.A. ~~In order to~~To ensure the safety of employees and protection of water system infrastructure, ~~the customer shall maintain unrestricted and visible access to the water meter and other~~any water equipment and related appurtenances (e.g. water meters, fire hydrants, air release valves, etc.) at all times. This includes, at a minimum, seven feet of clearance above the meter box equipment and one foot around the meter box where only decorative ground cover is permissible (gravel, bark, mulch, grass, etc.) to allow a person to walk around the equipment and stand upright on or near without obstruction. All ~~No~~ trees, shrubs, or other obstacles with expansive/invasive root systems must be maintained no closer than ~~shall be planted within~~ two feet from the edge of the ~~meter box equipment.~~ The General Manager, or his/her designee, may determine if the clearance meets the intent of the ordinance. If access is deemed to be out of compliance with this ordinance, the customer is required to remove or modify the obstruction and/or reimburse the District for any costs incurred to clear the meter box equipment on the customer's behalf. Service may be discontinued if permanent safe accessibility is not provided.
- B. Testing and inspecting backflow prevention assemblies installed, maintained, and operated by the Customer.
- C. Inspecting any and all such buildings, ground and Premises (including any and all plumbing, water piping, fixtures and connections therein or thereon) to determine the manner and quantity of water use or, the existence of any condition causing, or likely to cause, the waste of water, or affecting, or likely to affect, the furnishing or receipt of water service.
- D. Determining the existence, operation, maintenance and/or use in, on or about the buildings, ground or Premises of any plumbing, water piping, water fixtures or connections that may now or hereafter cause, create or permit back-flow, back-siphoning or any other condition affecting, or likely to affect, the purity and/or potability of the water supply furnished by the District.
- E. Confirming access and allowing separation between customer facilities and District facilities, easements, and encroachments upon easements.
- F. Making repairs and performing maintenance on any District facility.
- G. Facilitating the enforcement by said District of any and all of its ordinances, resolutions, rules, regulations and policies governing water service.

Each District inspector, agent and employee shall be furnished with, and upon the request of any Customer shall display, appropriate identification.

The unreasonable denial of entry by authorized District employees or agents for the purposes set forth in this Code shall be grounds for termination of water service.

**SAN JUAN
WATER DISTRICT**
GRANITE BAY, CALIFORNIA

PROPOSED BUDGET
FISCAL YEAR 2019-20

Cover Photo: Drainage pipeline for Kokila Reservoir. Kokila Reservoir (a retail facility) is scheduled for replacement in Fiscal Year 2020-2021. The District is currently seeking alternative, low-cost financing for this large infrastructure replacement project, in order to put continued downward pressure on water rates while ensuring the delivery of a reliable water supply of the highest quality.

San Juan Water District

Fiscal Year 2019-20 Budget

Prepared by the Finance Department under Direction of
the General Manager

Mission Statement:

Ensure the delivery of a reliable water supply of the highest quality at the lowest reasonable price.

Vision Statement:

To be a recognized industry leader in the treatment and distribution of a reliable supply of safe and clean drinking water, while protecting and retaining the District's water rights and supply.

GFOA Budget Award

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to San Juan Water District for its annual budget for the fiscal year beginning July 1, 2018. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

By The Numbers – Summary of District Information

Water System	
Total Water Supply Available	82,200 acre-feet
Treatment Plants	1
Treatment Plant Capacity	150 MGD
Reservoirs	2
Miles of Water Main	222
Storage Tanks	2
Booster Stations	9
Number of Booster Pumps	38
Number of Control Valve Stations	15
Number of Solar Facilities	1
Number of Pressure Zones – Retail Service Area	8
Number of Active Service Connections – Retail Service Area	10,700

Miscellaneous Statistical Information	
Size of Service Area	46 square miles
Size of Retail Service Area Only	17 square miles
Population of Service Area (per FY 2017-18 CAFR)	154,781
Population of Retail Service Area Only (per FY 2017-18 CAFR)	29,830
Number of Active Employees	48
Number of Bond Issues Outstanding	2
Wholesale Operating Budget	\$ 9,101,900
Wholesale Capital Budget	\$ 9,373,400
Retail Operating Budget	\$ 12,397,300
Retail Capital Budget	\$ 3,987,300

ABOUT THE DISTRICT

This Page Intentionally Left Blank

ABOUT THE DISTRICT

The San Juan Water District (District) initially began as the North Fork Ditch Company dating back to 1854 providing water to the area. The District, as in existence today, was formed as the result of petitions being presented to the Board of Supervisors of Sacramento and Placer Counties by Citrus Heights Water District, Fair Oaks Water District, Orange Vale Water Company and a group of homeowners in South Placer County. An election was then held within the boundaries of the sponsoring districts including the District's current Placer County service area on February 10, 1954. At this election, voters approved the formation of the San Juan Water District by nearly a two-thirds majority and elected five Directors. The District is a Community Services District formed under Section 60000 et seq., Title 5, Division 3 of the California Government Code.

The District provides water on a wholesale and retail basis to an area of approximately 17 square miles for retail and 46 square miles for wholesale (which includes the retail area) in Sacramento and Placer Counties.

The District's wholesale operations include: protecting access to reliable and sufficient water supplies; operating and maintaining a surface water treatment plant; operating and maintaining treated water storage; pumping and transmission facilities; delivering treated water to five retail agency customers (the District's retail division, Fair Oaks Water District, Citrus Heights Water District, Orange Vale Water Company and the City of Folsom (Ashland); and providing the administrative support necessary to successfully carry out those functions.

The District's retail operations consist of operating and maintaining storage, pumping, transmission and distribution facilities, which deliver water to approximately 10,700 retail service connections located in a portion of Northeast Sacramento County and the Granite Bay area of South Placer County, and providing the administrative, customer service, water efficiency, and engineering support necessary to successfully carry out those functions.

The District's existing water supply consists of three separate raw water contracts. The first source of water comes from a settlement contract with the U.S. Bureau of Reclamation (Reclamation) whereby it is required to deliver the District's pre-1914 and post-1914 water rights water from the American River, totaling 33,000 acre-feet. The second source is a water service contract with Reclamation for 24,200 acre-feet of Central Valley Project water. The District secured a long-term (40 year) renewal of this contract in 2006. The third water source is a contract with Placer County Water Agency (PCWA) for up to 25,000 acre-feet of water.

All sources of surface water are either stored or flow through Folsom Lake and delivery is taken at Folsom Dam outlets, either by gravity or pumped by Reclamation's Folsom Pumping Plant. Total raw water delivery for the 2017-2018 fiscal year was 36,050.37 acre-feet and is anticipated to be 35,482 acre-feet for Fiscal Year (FY) 2018-19, and 34,550 for FY 2019-20 excluding pass through deliveries for SSWD.

In response to the recent drought and in preparation of future drought conditions, the District recently partnered with two nearby water districts, PCWA and SSWD, to construct inter-ties

to allow water supplies to be shared and transferred if normally available supplies are reduced and/or inadequate to meet immediate demands for either district.

The District has long been a proponent and practitioner of cost effective water efficiency programs. The implementation of these programs has been highly successful and the District complies with best management practices that are required by the Sacramento Area Water Forum Agreement, California legislation SBx7-7 (2009), the California Department of Water Resources, and the Central Valley Project Improvement Act.

The District's water efficiency programs include:

- Water Awareness Poster Contest and Calendar – Since 1992, the District and its wholesale agency customers, Citrus Heights Water District, Fair Oaks Water District and Orange Vale Water Company, have promoted water awareness at the elementary school level through an annual water awareness poster contest.
- Rebate Program – The District provides rebates for the purchase of high-efficiency washing machines, and hot water on-demand recirculation systems as well as irrigation efficiency rebates to both residential and non-residential customers.
- Free Programs – District staff provides free indoor and outdoor water audits, leak detection, and recommendations to improve irrigation system performance. Staff also creates landscape water budgets and irrigation schedules to improve efficiency. The District conducts and hosts a variety of workshops on drip systems and proper irrigation techniques, landscape design, soil health, tree maintenance, controller management and other water efficiency topics. A speakers' bureau is available to talk to groups about water efficiency programs and water supply and reliability issues.
- Water Efficient Landscape (WEL) Garden – Located behind the District's administrative office are gardens to inspire visitors to create a water efficient landscape that looks beautiful every season. The garden demonstrates efficient irrigation and non-water using materials to create a beautiful landscape.

The benefits of these programs include more cost-effective and efficient use of water and increased customer awareness on the importance of water efficiency to contribute to future reliability of water supplies.

The District's water treatment facility, the Sidney N. Peterson Water Treatment Plant (Plant), was constructed in three phases beginning in 1975 and completed in 1983. The Plant includes two flocculation-sedimentation basins, two filter basins, an operations building and a covered 62 million gallon storage reservoir. Major upgrades and improvements to the Plant have been made over the years, including increasing its maximum seasonal capacity (May 15th to September 30th) to 150 million gallons a day (mgd) from its original 100 mgd. Those past upgrades, and ongoing efforts to identify and implement projects and process improvements to increase efficiency, cost effectiveness, and productivity, all contribute to the District's success in reliably satisfying customer demands while continuing to meet or exceed all Federal and State regulatory requirements.

The Plant receives delivery of raw water directly from Folsom Dam outlets. The raw water undergoes an extensive water treatment process to ensure the highest quality of water for all customers. From the Plant, the water flows into the District's 62 million gallon Hinkle Reservoir for storage and distribution. The District maintains approximately 222 miles of transmission and distribution pipelines, which transport the high quality treated water to wholesale and retail customers.

Budget Purpose, Process and Control

The District operates on a fiscal year that runs from July 1 through June 30. The District adopts an annual operating budget and an annual capital improvement budget to ensure the adequacy of resources to meet District needs and to accomplish the District's mission. As required by certain debt covenants, the annual operating budget is evaluated, to ensure that net revenues, as defined by the various debt covenants, are equal to or exceed a minimum of 115 percent of the anticipated debt service for the budget year.

In March of 2018, the Board of Directors adopted a Strategic Plan which staff now uses as the guiding light in preparing an operations plan and annual budget. Using the goals in the Strategic Plan, as well as direction received throughout the year from the Board of Directors, the Department Managers prepare and submit draft budgets to the Finance Department. The Finance Department prepares the revenue budget, and reviews and compiles the various department budgets. A budget workshop is held to present and discuss the draft budget with the Board of Directors and interested members of the public. Feedback from that meeting is used to adjust the draft budget, if necessary. A public hearing is then held after which the Board of Directors votes on budget adoption.

Budget to actual financial data is monitored continuously throughout the year by management and is reported on a monthly and annual basis to the Board of Directors. The General Manager has the authority to move budget between specific lines within a fund, or between funds to correct posting errors. Transfers between funds, for purposes other than error correction, or to maintain required reserve levels, require approval from the Board of Directors.

Budget Format

The budget is prepared on a modified accrual basis wherein revenues and expenses are reported when earned and incurred, respectively. The budget does not include amounts for depreciation, pension expense in accordance with GASB 68, or retiree medical expenses in accordance with GASB 74/75 but does include an expenditure for debt principal. Therefore, the budget is not prepared in the same manner as the Comprehensive Annual Financial Report (CAFR). The program budget format is used versus a line item detail format to provide the most valuable information to the reader on all of the District's major areas of service (Administration, Customer Service, Distribution, Engineering, Water Efficiency, and Water Treatment Plant). Expenditure data is also presented in a functional format (Salaries & Benefits, Materials & Supplies, etc.) to provide readers with an alternate view.

For financial reporting purposes, the District operates a single enterprise fund. However, for management of the two divisions, wholesale and retail, the District utilizes four distinct funds, one each for Operations and one each for Capital Outlay.

In order to ensure funds are available to meet both operating and capital needs, the District (for both Wholesale and Retail Operations) established a financial planning process with development of a Master Plan that contains a review of current infrastructure, and that recommends projects for a twenty to thirty year period. The District then estimates current and future operating needs, and works with a rate consultant to develop a water rate study and financial plan.

The District completed a Financial Plan and Rate Study, resulting in a 5-Year Rate Schedule. The Wholesale Rate Schedule went into effect on January 1, 2017, and resulted in an effective increase of 16%. Wholesale rates are authorized to increase by 9% per year through January 2020 and by 5% in January of 2021. The Retail Rate Schedule went into effect on May 1, 2017, and resulted in an effective increase of 8%. Retail rates are authorized to increase by 9% on January 2018 and 8% on January 1, 2019 and 2020, with a 6% increase approved for January 1, 2021. In an effort to bring rates into alignment with the District's fixed versus variable expenses, all rate increases are applied to the fixed portion of the rate with the volumetric portion of the rate unchanged. This will bring stability to the rate structure and provide reliable funding to cover fixed operating costs regardless of water demand.

Financial Policies

Key District Financial Policies include the Reserve Policy, the Debt Policy, the Investment Policy and the Procurement Policy.

Reserve Policy

In accordance with Board Resolutions, Board Motions, and/or District Ordinances, certain reserve funds have been established and maintained as follows:

WHOLESALE RESERVES:

NAME	PURPOSE	AMOUNT/LEVEL
Operating	Established in 1998 to provide working capital for operations and unexpected needs.	20% of operating expenses
Capital Improvement Program	Established in 1998 to fund capital replacements, rehabilitation, upgrades and improvements.	Determined annually by Board of Directors. Budget includes revenues and transfers in at least equal to annual depreciation.

RETAIL OPERATING RESERVES:

NAME	PURPOSE	AMOUNT/LEVEL
Operating	To provide working capital for retail operations, as well as readily available capital for unexpected needs and modest variations between expected and actual water demands.	20% of annual operating expenditures
Capital Improvement Program	To fund capital replacements, rehabilitation, upgrades and improvements.	Determined annually by Board of Directors. Budget includes revenues and transfers in at least equal to annual depreciation.

Debt Policy

The Debt Policy, adopted in compliance with Government Code Section 8855(i), governs all debt undertaken or refinanced by the District. It describes the purposes for which Debt may be issued, the types of debt the District may issue, and the relationship of debt to the Capital Improvement Program and the Operating Budget.

Investment Policy

In accordance with District Ordinance No. 3000.05, management responsibility for the investment program is delegated to the General Manager. The Director of Finance has been designated as the “Investment Officer” in charge of operational management.

Investments by the Investment Officer are limited to those instruments specifically described in the District’s Investment Policy. The Investment Officer submits quarterly reports to the Board of Directors detailing all investment holdings. In order of importance, the following five fundamental criteria are followed in the investment program: 1) safety of principal; 2) limiting credit risk liquidity; 3) limiting interest rate risk; 4) liquidity and; 5) return on investment.

Procurement Policy

The District’s procurement policy creates uniform procedures for acquiring equipment, and goods and services for its operations. The primary purpose of this policy is to provide for the purchase of materials and trade services with the objective that they will be available at the

proper time, in the proper place, in the proper quantity, in the proper quality, and at the best available price, consistent with the needs of the District.

Accounting System and Controls

The District uses the Tyler Technologies financial accounting system to record its financial transactions. Management has established a system of internal controls that provides a reasonable basis for protecting the District's assets from loss, theft, and misuse, and that compiles sufficient reliable information for the preparation of the District's financial statements. At the end of the year, the District prepares a CAFR consisting of management's representations concerning the District's finances. An independent auditing firm audits this report and examines District internal controls and provides an opinion on the financial reporting and provides suggestions on ways to improve the internal control processes of the District.

Fund Structure and Descriptions

Legally, San Juan Water District is a single enterprise fund. For purposes of rate setting, reserve segregation and managerial reporting, the District utilizes four distinct funds as follows:

Enterprise Funds:

- Wholesale Operating Fund
- Retail Operating Fund

Capital Outlay Funds:

- Wholesale Capital Outlay Fund
- Retail Capital Outlay Fund

The funds are combined for purposes of formal financial reporting (audited financial statements). Budgets and descriptions for these funds can be found starting on page 37.

Budget Assumptions

A budget is an estimate of revenues and expenditures for a set period of time. The creation of estimates involves a set of assumptions. It is important that the reader of this budget understands the assumptions used in preparing the revenue and expenditures estimates contained herein. Listed below are the primary assumptions used in the creation of this budget:

- Water rates from Board adopted 5-Year Rate Schedule
- Wholesale Water Rates reduced on July 1, 2019, to reflect lower debt service costs on refinanced debt.
- 3% decline in wholesale water deliveries, based on estimates provided by wholesale customers (excluding water treated for SSWD)
- 7,786 AF of water to be treated for SSWD
- No increase in retail water deliveries
- Property taxes increase 2%
- No Central Valley Project water to be purchased
- Increased cost of water supply to Retail Service Area due to planned reallocation of fixed costs to wholesale customer agencies effective January 1, 2020
- 23% (\$32,000) increase in workers compensation expense – no rate increase but experience modifier increased from .76 to 1.28 due to higher claims
- 6% increase in health care insurance costs
- Salary budget was prepared in accordance with the Board of Directors Compensation Policy which requires the District utilize the CalPERS assumed salary increases. Any COLA's, adjustments from the Compensation Study or merit increases will be constrained by the Salary budget.

Estimated Revenues and Expenditures of Funds – Summary

Estimated Revenues and Expenditures of Funds – Summary

	Wholesale Operations	Wholesale Capital Outlay	Retail Operations	Retail Capital Outlay	Total
Est. Beginning Available Reserves July 1, 2019	\$ 1,904,966	\$ 15,440,062	\$ 2,213,684	\$ 4,679,241	\$ 24,237,952

MAJOR REVENUES AND EXPENDITURES

This Page Intentionally Left Blank

MAJOR REVENUES AND EXPENDITURES

In order to assist in understanding the fiscal trends facing the District, and the assumptions utilized in preparing this budget, the following discussion and analysis of the District’s major revenues and expenditures are presented.

Water Sales

Revenue from the sale of water accounts for 88% of all District revenues. Water revenues are driven by two primary factors, the amount of water sold and the rate per unit. The Board of Directors considers and adopts rates through separate processes for wholesale and retail. Wholesale customers are presented with a rate study and are given 150 days to provide comments to the Board of Directors on proposed rate changes. After the 150 day comment period, the Board of Directors review the comments and make a decision on rates for the upcoming calendar year.

Retail rate setting is subject to the provision of Proposition 218 wherein customers are provided information on proposed rate changes, and are invited to attend a public hearing on the proposed changes. Proposed rate changes can be denied if a majority of ratepayers submit votes opposing them. If a majority of rate payers do not vote “no”, the Board of Directors vote on the proposed rate increase and set the effective date for any proposed and approved changes.

The District completed a Financial Plan and adopted a 5-Year Rate Schedule for both wholesale and retail water rates in early 2017.

Chart 1 and 2 show water deliveries and water revenues from FY 2010-11 to current.

WHOLESALE WATER DELIVERIES - ACRE FEET

Chart 1

The recent drought resulted in a significant decline in water deliveries. Wholesale water deliveries began a steady decline in FY 2011-12, followed by retail two years later. Wholesale water deliveries reached their low in FY 2014-15 and retail reached its low in FY 2015-16. With the drought “officially” over, the District experienced an uptick in wholesale water demand in FY 2015-16 totaling 35,105 acre-feet. However, this increase was primarily attributed to 4,468 acre-feet of water treated for SSWD (see yellow component in Chart 3). SSWD has an agreement to periodically purchase raw water from PCWA (based upon water supply conditions). They have an agreement with the District to treat and deliver the water that they purchase from PCWA.

Absent the water treated for SSWD, wholesale demand did not begin to increase until FY 2016-17. Demand from the District’s regular wholesale customers slowly increased through FY 2018-19 but is expected to decrease by approximately 3% in FY 2019-20 with a total of 34,250 acre-feet anticipated to be sold in this budget year to the regular wholesale customers.

The end of the drought resulted in increased water demand in the retail service area. There was an 18% increase in FY 2016-17 retail water deliveries and a 15% increase in FY 2017-18. The FY 2019-20 budget does not anticipate an increase in demand as the District is not experiencing significant growth and it is assumed that the rebound in demand from the end of the drought has already occurred. As such, this budget assumes retail water deliveries of 4.6 million CCFs, consistent with our expectations for FY 2018-19.

Water Sale Revenues (in millions\$)

Chart 3

Wholesale water sale revenues declined steadily from FY 2010-11 through FY 2014-15. Revenues increased steadily from FY 2015-16 through FY 2018-19 for a number of reasons:

- Increased demand from wholesale customers. Demand from the wholesale customers was a low 33,213 acre-feet in FY 2014-15 and is estimated to peak at 35,173 acre-feet in FY 2018-19.
- Treatment of SSWD water. When certain hydrology conditions are met, SSWD is able to purchase surface water from PCWA to augment their groundwater supplies. SSWD pays the District to treat this surface water on their behalf. After not taking surface water for two years, SSWD began taking this supply in FY 2015-16, causing a spike in District revenues. The budget includes treating 7,786 acre-feet of water for SSWD in FY 2019-20.
- Increased rates. On January 11, 2017, the Board of Directors approved a 5-Year Rate Schedule, which allows for a 9% effective increase to go into effect on January 1, 2020. However, this budget includes a reduction to the Debt Service Charge, reflecting the savings from a refunding of the 2009A COP's in 2017.

Wholesale water sale revenue is expected to decline in FY 2019-20, in spite of the rate increase due to SSWD taking less surface water and the wholesale customers reporting planned demand that is 3% less than FY 2018-19.

On the retail side, FY 2011-12 retail water use was relatively constant from the prior year, but due to a 2% rate increase, effective the prior January, revenues were slightly up.

In FY 2012-13, water use increased 11% and while there was no rate increase in the prior year, there was an inflation adjustment of 2% mid-way through the year, resulting in an increase in revenues.

In FY 2013-14, water use began a multi-year decline, but a mid-year 2% rate increase, combined with the prior year 2% increase resulted in revenues that were just slightly lower than the prior year.

San Juan Water District

Fiscal Year 2019-20 Budget

In FY 2014-15, water use dropped significantly as a result of the drought and conservation mandates. The District restructured their rates and at the end of the fiscal year, in June 2015, implemented a retail drought surcharge. Revenues for FY 2014-15 fell 7.8% from the prior year.

In FY 2015-16, water use continued its sharp decline but due to the drought surcharge and a 15% rate increase in January 2016, revenues were restored to FY 2013-14 levels. The drought surcharge was removed April 1, 2016.

FY 2016-17 yielded a 10.4% increase in revenues, mostly from increased consumption from the end of the drought.

The Board of Directors approved a 5-Year Rate Schedule that resulted in an effective 8% rate increase on May 1, 2017, and a 9% rate increase on January 1, 2018. Those rate increases, combined with increased consumption produced a 19.9% increase in retail water sale revenues for FY 2017-18.

In FY 2018-19, the District expects to see a slight decrease in water demand (down 1.7% from FY 2017-18). The increase in revenues is fully attributable to a scheduled 8% rate increase on January 1, 2019.

The District is assuming that the rebound in demand from the end of the drought has mostly been achieved. Given very little growth in the retail service area, the District is assuming that demand will not significantly change in FY 2019-20. The increase in budgeted revenues is from the scheduled 8% rate increase that goes into effect on January 1, 2020.

Property Tax

Representing approximately 8% of total District revenues, the Property Tax is the second largest revenue source. Property Tax revenue is shared evenly between wholesale and retail and has been designated by the Board of Directors to be spent on capital projects, not operations.

Property Tax Revenues

Chart 4

Property Tax revenues have been increasing over the past eight years, a result of the rebound in the housing market after the Great Recession (see Chart 4). This budget anticipates a 2% increase in Property Tax revenues.

Salaries and Benefits

Aside from the Capital Improvement Program, Salaries and Benefits represent the largest expense of the District.

Salaries and Benefits

Chart 5

Chart 5 depicts a spike in Salary and Benefit costs in FY 2016-17 then a decline through FY 2018-19 with an increase in FY 2019-20. The spike is due to the Board of Director's decision to pay off the District's unfunded pension liability. The District paid \$4,112,000 towards this liability in FY 2016-17 and remitted an additional \$2,787,800 in FY 2017-18, which is expected to materially eliminate the liability. Paying down the unfunded liability will save the District approximately \$8.8 million over the next 30 years.

Removing the effect of the additional pension contributions, Salaries and Benefits are expected to increase by 10% or \$762,900 due to the following factors:

- The Board approved the addition of a Safety/Regulatory Compliance Coordinator. The position was filled in April 2018.
- The Board approved the addition of a Customer Service Technician in FY 2018-19.
- Due to a higher than normal workers compensation claims experience, the District is facing a 68% increase in Workers Compensation premiums.

- Assumed 6% increase in health insurance premiums.
- The Board of Directors amended its Compensation Policy on September 13, 2017, to ensure that the combination of cost of living adjustments and merit pay increases do not cause an increase in salaries greater than that assumed by PERS when calculating the District pension liability. The Compensation Policy requires the annual operating budget to assume the same increase in salaries as that assumed by PERS in calculating the District's pension liability. For FY 2019-20 that increase is 4.14%.

The level of District staffing (number of employees) has remained relatively unchanged for many years, in spite of significant increases in regulatory compliance work and an aging infrastructure. In FY 2016-17, the Board of Directors approved the addition of one Water Treatment Plant Operator, in FY 2017-18, the Board of Directors approved the addition of a Safety/Regulatory Compliance Coordinator, and in FY 2018-19, the Board of Directors approved the additional of a Customer Service Technician to improve internal controls and better serve our customers. The District now has 48 Full Time Equivalent (FTE) positions.

The Compensation Policy, amended by the Board of Directors in September of 2017, requires a compensation study be performed at least once every four years. The purpose of the study is to ensure the District is offering a fair and competitive compensation package to its employees. The District completed its most recent Compensation Study in the Spring of 2019.

Water Supply Costs

The District’s existing water supply consists of three separate raw water contracts. The first source of water is 33,000 acre-feet of water rights on the American River. The second source is a contract with Reclamation for 24,200 acre-feet of Central Valley Project water. The third water source is a contract with PCWA for up to 25,000 acre-feet of water. All sources of surface water are either stored or flow through Folsom Lake and delivery is taken at Folsom Dam outlets, either by gravity or pumped by Reclamation’s Folsom Pumping Plant. Total raw water delivery for FY 2017-18 was 36,050 acre-feet and is anticipated to be 35,482 acre-feet for FY 2018-19, and 34,550 for FY 2019-20, excluding pass through deliveries for SSWD.

Wholesale Water Supply Cost

Chart 6

As illustrated in Chart 6, water supply costs increased significantly in FY 2016-17 and again in FY 2018-19.

The FY 2016-17 costs increased for two primary reasons. First, in 2008 a surface water shortage and reimbursement agreement to provide groundwater supplies during times of surface water shortage was prepared, and referenced in the signed 2008 Wholesale Water Supply Agreements. The District, in its capacity as the wholesale supplier, determined that there was a potential need for groundwater pumping between 2009 and 2013, and asked both the Citrus Heights Water District and Fair Oaks Water District to maintain their readiness to supply groundwater. In 2014, due to a potential shortage in

surface water supplies caused by a third year of drought, the District requested groundwater to be pumped. From 2009 to 2014, both districts maintained their readiness to supply groundwater, as requested, but did not submit invoices for the incremental cost until the District asked them to actually pump groundwater in 2014. At that time, the District was provided with a bill in the approximate amount of \$4 million. The District disputed the amount, and the cost was settled in FY 2016-17 at \$1,981,440, to be repaid over a 4-year period ending in FY 2019-20. The light orange bar on Chart 6 shows water supply costs for fiscal years 2016-17 through 2019-20 without the payment towards the groundwater reimbursement.

After removing the effect of the groundwater reimbursement, FY 2016-17 water supply cost still show an increase over the prior year. The agreement with PCWA required the District to pay for 25,000 acre-feet of water, regardless of how much water the District actually took. However, in periods of drought, the District is allowed to pay for the greater of 10,000 acre-feet or the actual amount delivered. With the drought officially over in FY 2016-17, the reduced demand allowance ended and the cost of the PCWA contract rose accordingly.

Water supply costs decreased in FY 2017-18, in spite of increased demand. This was due to a reduction in the cost of water purchased from PCWA. Per the contract between the District and PCWA, the cost of PCWA water is calculated as the average of the District's Central Valley Project rate and the Central Valley Project rate for the City of Roseville and PCWA. In addition, the District must pay Warren Act contract charges on the PCWA water it receives. Central Valley Project water rates and Warren Act charges are set annually by Reclamation. Due to an abundance of water supplies, Reclamation reduced the Central Valley Project rate by 35% for 2017, causing a like decrease in the District's PCWA water rate. Additionally, in December of 2017, the District negotiated an amendment to the contract with PCWA wherein the take or pay amount was reduced from 25,000 acre-feet to 12,500 acre-feet. The District still has the option to take up to 25,000 acre-feet, but is only required to pay for 12,500 acre-feet regardless of whether it takes the water or not. This cut the PCWA water supply cost to half of what it would have been otherwise.

The spike in costs in FY 2018-19 is a result of a groundwater substitution transfer. In FY 2018-19 the District sold 2,808 acre-feet of surface water to the Dudley Ridge Water District and the Kern County Water Agency. Both the Citrus Heights Water District and the Fair Oaks Water District used their groundwater instead of purchasing the District's surface water. The District compensated them for the cost of the groundwater out of the transfer proceeds. The transaction yielded net revenues but increased the water supply cost in the process.

Water supply costs for FY 2019-20 are in line with FY 2017-18 with no planned groundwater substitution transfers and no substantial change in water demand.

Capital Spending

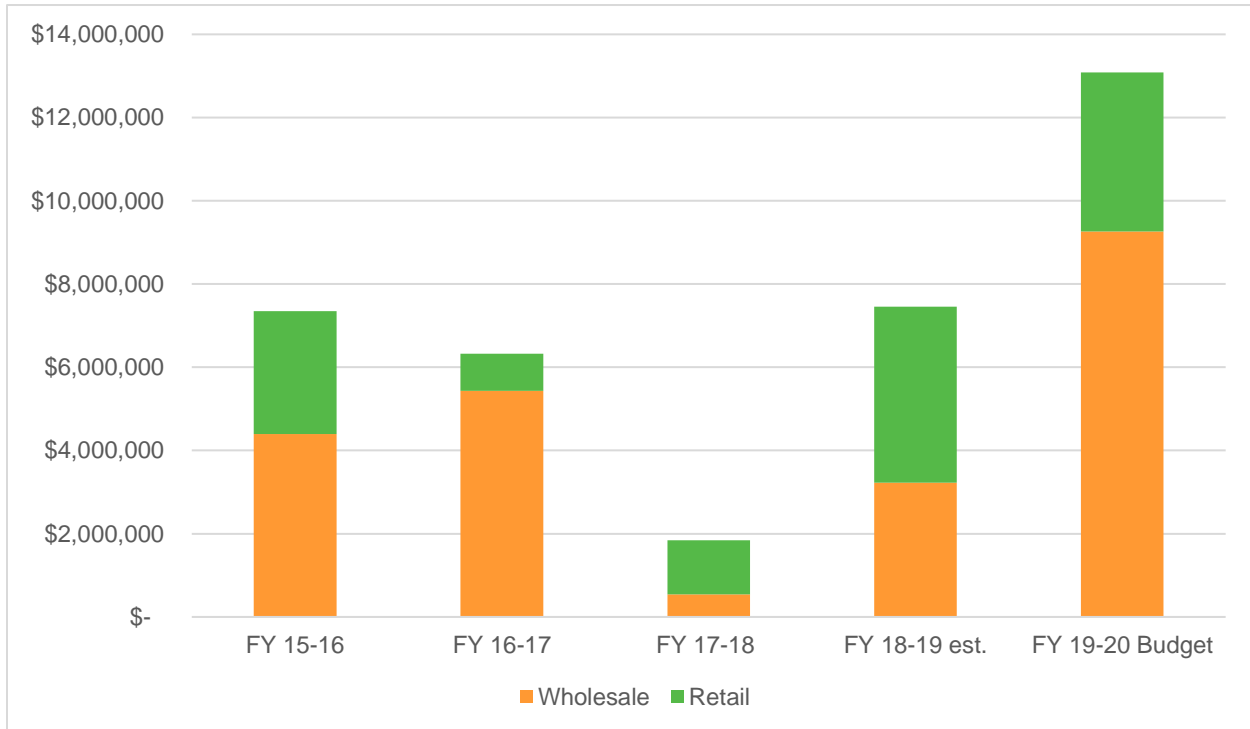

Chart 7

Capital spending has fluctuated from \$7.3 million in FY 2015-16 to a low of \$1.8 million in FY 2017-18 then increasing to a four year planned high of \$13.4 million.

The District is spending approximately \$2.8 million in FY 2018-19 on the Fair Oaks 40-Inch Pipeline Relining Project. This project rehabilitates approximately 11,000 linear feet of 40-inch aged steel pipeline located both in the City of Folsom and the County of Sacramento, in both residential properties as well as public rights of way. In FY 2019-20, the District will be spending \$4.1 million to resurface the North and South filter basin at the treatment plant, replacing filter media and nozzles in the process. Another significant project in FY 2019-20 is the planning and design for the replacement of the Hinkle Reservoir, a 62 million gallon lined and covered earthen reservoir. The cover and liner were installed in 1981 with an estimated life of 25 years. Regular maintenance has extended its life an additional 13 years but based on current condition assessment it must soon be replaced.

On the retail side, the District anticipates spending \$4.1 in FY 2018-19 on capital projects. Of that total, \$3.3 million is on pipeline replacement projects. Another \$3.97 million is planned for FY 2019-20, again mostly on replacing aged and failing pipelines. However, there is \$771,000 planned on pump station improvements and a significant amount of projects were deferred to future years due to lack of funding.

A complete list of projects planned for FY 2019-20 can be found on pages 46 and 50 of this document.

Reserve Summary

Wholesale and Retail Operating and Capital Reserves Combined

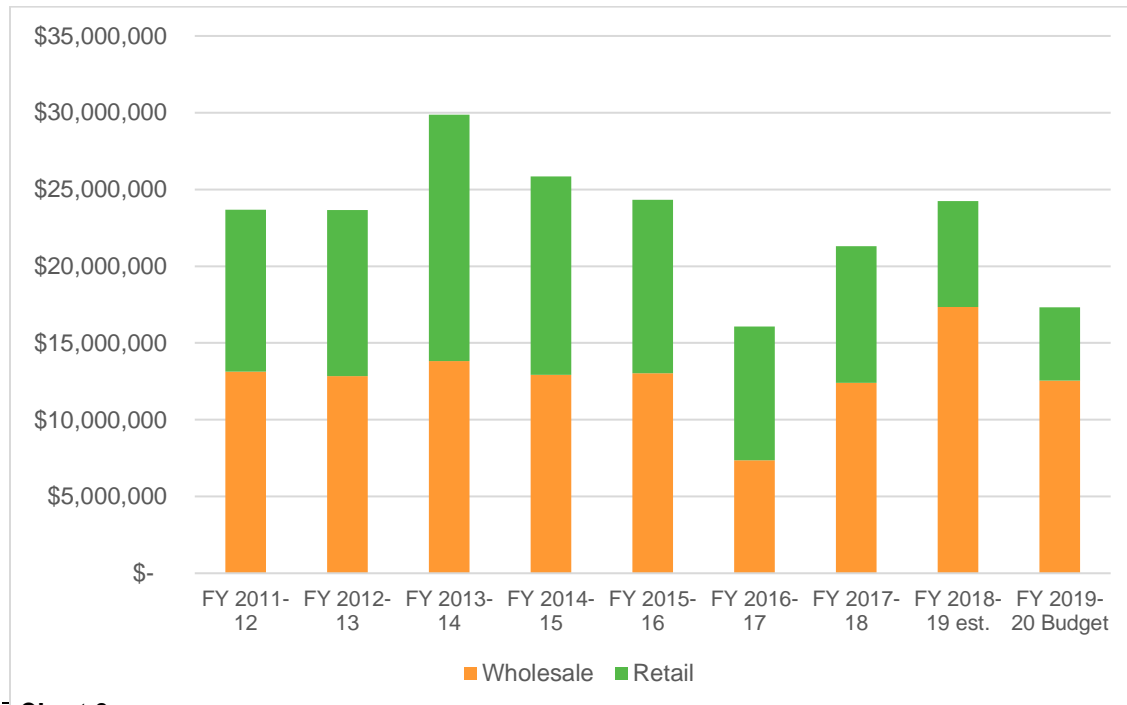

Chart 8

The combination of the Great Recession, followed by the drought, resulted in the need to defer maintenance and capital projects and utilize reserves to augment operations and critical capital projects. This is illustrated in Chart 8 by the sharp decline in District reserve balances between FY 2013-14 and 2017-18.

The District has taken several actions to improve its financial condition now and into the future, as described below:

- Paid off Unfunded Pension Liability:*** The Board authorized two large payments intended to pay off the District’s unfunded pension liability. The District was paying 7.5% interest on this liability, but only earning approximately 1.5% on its reserves. In May 2017, the District remitted \$4,112,000, and in April 2018 the District paid \$2,787,800. By drawing down reserves to pay down this debt, the District will save approximately \$8.8 million over the next 15 to 20 years, with annual savings of approximately \$350,000. These savings can be used to fund critical infrastructure needs which will help reduce upward pressure on rates.
- Debt Refinanced:*** In May of 2017, the Board of Directors approved an advance refunding of the District’s Series 2009A Certificates of Participation. This refinancing will save the District approximately \$11.2 million through FY 2038-39.

San Juan Water District

Fiscal Year 2019-20 Budget

- *Renegotiated contract with PCWA:* In December of 2017, the District negotiated an amendment to its contract with PCWA wherein the take or pay amount was reduced from 25,000 acre-feet to 12,500 acre-feet. The District still has the option to take up to 25,000 acre-feet, but is only required to pay for 12,500 acre-feet regardless of whether it takes the water or not. This cut the PCWA water supply cost in half, providing savings of approximately \$275,000 per year, starting in FY 2018-19.
- *Renegotiated contracts with City of Roseville (City):* Under two separate contracts, the District is obligated to provide up to 4,000 acre-feet annually to the City from the District's PCWA take or pay contract. The amendments require the City to compensate the District for maintaining the availability of 4,000 acre-feet per year water supply for the City. This will generate annual revenues of approximately \$90,000 beginning in FY 2018-19.
- *5-Year Rate Schedule:* The District completed a Five Year Financial Plan and implemented a five year rate structure in 2017 that was designed to replenish reserves while ensuring that the District can continue its mission to deliver a reliable water supply of the highest quality at reasonable and equitable costs.
- *Completion of the first groundwater substitution transfer:* The District has been working for many years to create a legal path for the sale of excess water supplies. Selling excess water supplies benefits all customers of the District as it generates additional revenues that can be used to maintain and/or improve infrastructure, reduce or eliminate the need for future debt which will reduce future upward pressure on water rates. The first groundwater transfer was completed in FY 2018-19 paving the way for more transfers in the future.

OPERATING FUNDS

This Page Intentionally Left Blank

OPERATING FUNDS

The Wholesale and Retail Operating Funds account for the operations of the District. Department operating costs are shared and split between wholesale and retail based upon the proportionate benefit received by each, which can differ from person to person, department to department and expense to expense. The major projects for the budget years are discussed in detail in the Operation Plan, which can be found on the District website. The District is comprised of the following functional areas, or departments:

Administration and General

The functional area of Administration and General is a combination of the following departments: Board of Directors, Executive, Finance, Administration, Human Resources, and Information Technology. Overall District costs related to general operations, legal, insurance, and office expenses are recorded in this category.

Customer Service

The Customer Service Department is responsible for the billing and collection of water service revenue from the District's retail customers and is the initial point of contact for customer inquiries. This includes the establishment of new water service, modifications to existing service, payments, delinquency cutoffs, and meter reading.

Distribution (Field Services)

This Department operates and maintains wholesale and retail water transmission and distribution pipelines ranging in size from 6" to 96" in diameter and totaling over 217 miles in length, including water meters, air release valves and other appurtenances. The Department also maintains and operates six pump stations and three reservoirs ranging from 0.05 to 4.56 million gallons within the retail system. The Department responds to emergency repairs, works directly with customers, and monitors and maintains water quality standards in the system to meet all federal and state drinking standards.

Engineering Services

This Department is responsible for planning, designing and managing capital improvement projects, assisting with operational improvements, and assisting with maintenance activities which contain an engineering component.

Water Efficiency

The Water Efficiency Department is responsible for creating and implementing programs and services that reduce water use to meet federal, state and local commitments.

Water Treatment

This Department maintains and operates the Plant. The Plant is staffed and operated continuously, 24 hours per day, 7 days per week and 365 days per year. The Department also maintains the Hinkle Reservoir, a 62 million gallon floating cover reservoir, where treated water is stored prior to distribution. The Plant supplies potable water to the Citrus Heights Water District, Fair Oaks Water District, Orange Vale Water Company, Ashland, Sacramento Suburban Water District, and the District's retail service area.

Wholesale Operating Fund

The Wholesale Operating Fund is used to account for the operating revenues and expenses of the wholesale division. This includes the acquisition of raw water, operation and maintenance of the Plant, and the related administrative support to conduct wholesale water activities. This fund holds and is used to report on all wholesale operating reserves. Details on projects funded for the year can be found in the District's Operations Plan, located on the website.

Retail Operating Fund

The Retail Operating Fund is used to account for the operating revenues and expenses of the retail service area. This includes the payment to the wholesale fund for the cost of treated water, as well as the distribution of the treated water to all customers in the District's retail service area, including related administrative support. This fund holds and is used to report on all retail operating reserves. Details on projects funded for the year can be found in the District's Operations Plan, which will be located on the website after the budget is approved.

CAPITAL FUNDS

Wholesale Capital Outlay Fund

This fund was created in FY 2015-16 to receive and separately account for revenues that are designated by the Board of Directors to be utilized solely for wholesale capital expenditures and to account for the acquisition of wholesale capital assets, including large scale maintenance of capital assets and improvements made to such assets. Capital reserves were transferred out of operating into this new fund upon fund creation. This fund now holds and is used to report on all wholesale capital reserves. Details on the capital projects can be found in the District's Operations Plan on the website.

San Juan Water District

Fiscal Year 2019-20 Budget

The **Wholesale Capital Outlay Budget** includes spending on the following projects in FY 2019-20:

<i>Facility Maintenance:</i>	
Clarifier Wall Lining & Leakage Repairs ²	522,000
Hinkle Reservoir 48" Bypass Pipe Cleaning & Repair (1,020 LF WSP) ²	317,000
Replace Chlorine Piping ³	58,000
Resurface North and South Filter Basin Walls ²	37,000
<i>Land Improvements:</i>	
WTP Site Paving, Slurry Seal and Re-Stripe ²	225,000
Replace Solar Site Access Culvert ³	198,000
Replace East Campus Fence (along bike trail) ³	162,000
Replace Security Fence West End of WTP at WEL Garden ¹	34,000
Install Perimeter Fencing for Barton Road Parcel ¹	19,000
<i>Water Treatment Plant Improvements:</i>	
Filter Floor Repairs & Media/Nozzle Replacement North & South Basins ²	4,828,000
Rehabilitation of two Backwash Hoods ²	580,000
Construct Solids Containment Area and Handling Improvements ¹	454,000
Lime Tower Assessment, Design and Replacement ²	406,000
ARC Flash Assessment and Improvements ²	87,000
Replace Backwash Hood Track and Rail ²	75,000
Replace Solids Handling Building Variable Frequency Drives ³	41,000
Replace Tag Lines Backwash Hoods ³	35,000
Install Fiber Optic Cabling to Solids Handling Building ³	30,000
Lime System Control & Feeder System Improvements ³	24,000
Replace Three ProMinet c12 Sensor and Sensor Cabinets ³	20,000
Replace Depolox Analyzers ³	17,000
Replace Sludge Feed Pump ³	13,000
<i>Building Improvements:</i>	
Design Security Improvements ¹	52,000
Fire System Upgrades in Administration Building ¹	8,800
Administration Building Integrated Life Safety Upgrades ³	8,000
<i>Reservoir Improvements:</i>	
Replace Hinkle Reservoir Cover & Liner - Planning & Design ³	758,000
Replace Hinkle Reservoir Outlet Actuator Equipment - Planning & Design ³	8,000
Rehabilitate Hinkle Reservoir Inlet Structure - Planning & Design ³	19,100
<i>Equipment and Furniture:</i>	
Replace Three Thickener Access Ladders ³	67,000
Replace SCADA Radios - South Phase ³	57,000
Replace Phone System ¹	30,000
Replace Four HP Servers ³	26,000
Replace Solar Facility Inverter ³	23,000
Purchase Two Chicken Switch Actuators and One Remote Operator ³	11,500
<i>Software:</i>	
Replace Computerized Maintenance Management System ³	50,000
GIS Implementation ¹	25,000
Purchase Tyler Content Management and Output Director ¹	10,000
<i>Vehicles:</i>	
Replacement of Vehicle #29 Dodge Dakota ²	38,000
Total Capital Improvement Projects	\$ 9,373,400

Effect on Future Maintenance Costs

	combined	\$ 26,125,000	combined	\$ 14,376,160			

Labor Allocation

As mentioned previously, many employees are shared by wholesale and retail to maximize efficiency and eliminate the need for redundant positions. The table on the next page shows all District positions and their respective cost sharing between wholesale and retail based on their assigned duties.

Dept.	Position Title	Budgeted in Fiscal Year 2019-2020						
		Budgeted in FY17-18	Budgeted in FY18-19	# Budgeted	Wholesale Allocation	Retail Allocation	Wholesale FTE	Retail FTE

¹ Assistant General Manager position was eliminated during Fiscal Year 2017-2018.

² Safety-Regulatory Compliance Coordinator was a new position approved by the Board during Fiscal Year 2017-2018.

³ Distribution Operator position was replaced by the CMMS/GIS Coordinator during Fiscal Year 2018-2019.

⁴ CMMS/GIS Coordinator is a new position approved by the Board during Fiscal Year 2018-2019.

Board Resolution

Glossary of Terms

The budget contains specialized and technical terminology and acronyms that are unique to public finance and budgeting. To assist the reader in understanding these terms and acronyms, a budget glossary has been included herein.

Term	Definition
Acre-Foot	The volume of water that will cover one acre to a depth of one foot. One acre-foot of water equates to 325,828.8 gallons.
Allocation	A distribution of funds or costs from one account or appropriation to one or more accounts or appropriations.
Ashland	City of Folsom, north of the American River.
Assets	Resources owned or held by SJWD which have monetary value.
Audit	An investigation, done by an independent certified public accounting firm to provide an opinion on whether or not the financial statements of the SJWD are prepared in conformance with generally accepted accounting principles for government entities within the United States of America, and are free of material errors or misstatements.
Authorized	Given the force of law (e.g., by statute). For some action or quantity to be authorized, it must be possible to identify the enabling source and date of authorization.
Beginning/Ending Fund Balance	Appropriated resources available in a fund from the prior/current year after payment of the prior/current year's expenses. This is not necessarily cash on hand.
Best Management Practices (BMPs)	Proven and reliable water efficiency technologies and programs that address residential, commercial, industrial, and landscape water uses.
Bond	A written promise to pay a sum of money with a specific interest rate, at a specific time. In the budget document, these payments are identified as a debt service.
Budget	A plan of financial operation embodying an estimate of proposed expenditures for a given period of time and the proposed means of financing them.
Transmittal Letter	A general discussion of the proposed budget as presented in writing by the General Manager to the Board of Directors and Rate payers. The message contains an explanation of principal budget items and summaries found in the prepared budget relative to the current year adopted budget.
Capital Budget	The portion of the annual budget that appropriates funds for the purchase of capital equipment items and capital improvements.
Capital Improvements Program (CIP)	A long-range plan of the District for the construction, rehabilitation and replacement of the District-owned infrastructure.
Capital Outlay	A character of expenditure of funds to acquire land, plan and construct new buildings, expand or modify existing buildings, and/or purchase equipment related to such construction.

San Juan Water District

Fiscal Year 2019-20 Budget

Term	Definition
Central Valley Project (CVP)	California water project owned by the United States and managed by the Bureau of Reclamation for diversion, storage, carriage, distribution and beneficial use of waters of the Sacramento River, the American River, the Trinity River, and the San Joaquin River and their tributaries. The CVP is composed of some 20 reservoirs with a combined capacity of more than 11 million acre-feet, 11 power plants, and more than 500 miles of major canals and aqueducts. The CVP delivers about 7 million acre-feet of water annually for agricultural, urban, and wildlife use.
COLA	Cost of Living Adjustment – an increase to base wages designed to keep an employee’s pay even with inflation.
Debt Service	The District’s obligation to pay the principal and interest of bonds and other debt instruments according to a predetermined payment schedule.
Delta	The Delta is the largest estuary on the west coast and the hub of California’s water system. It is formed by California’s two largest rivers, the Sacramento and San Joaquin. The Delta has increasingly become a center of controversy as federal, state, and local governments and private entities have sought to make use of its resources.
Department	An operational and budgetary unit designated by the General Manager to define and organize District operations.
Depreciation	The process of matching the cost of a fixed asset (property, equipment, software, etc.) to the time periods over which it is used. As an example, if a piece of equipment has an estimated useful life of ten years and a purchase price of \$5,000; each year is charged \$500 of depreciation over the equipment’s ten year life, and the value of the asset is reduced accordingly.
Division	A major administrative unit of the District which has overall management responsibility for an operation of a group of related operations within a functional area.
Estimated Revenues	The budgeted, projected revenues expected to be realized during the budget (fiscal) year to finance all or part of the planned expenditures.
Expenditure	The actual payment for goods and services.
Expenses	The incurrence of liabilities or the consumption of assets arising from the delivery or production of goods, rendering services or carrying out other activities that constitute the entity’s ongoing major or central operation.
Fiscal Year (FY)	The time period designated by the District signifying the beginning and ending period for recording financial transactions. The District has specified July 1 to June 30 as its fiscal year.
Full Time Equivalent (FTE)	The amount of time a position has been budgeted for in terms of the amount of time a regular, full-time employee normally works in a year (2,080 hours).

Term	Definition
Fund	A set of accounting books with a self-balancing group of accounts in which cash and other financial resources, all related liabilities and residual equities, or balances and changes therein are recorded and segregated to carry on specific activities or attain certain objectives in accordance with special regulations, restrictions or limitations.
Fund Balance	For accounting purposes, the excess of a fund’s assets over its liabilities. For budgeting purposes, the accumulated excesses of a fund’s resources over its expenditures.
Generally Accepted Accounting Principles (GAAP)	The accounting principles, rules, conventions, and procedures that are used for accounting and financial reporting. GAAP for governments are set by the Governmental Accounting Standards Board (GASB), the accounting and financial reporting standards setting body for state and local governments.
Grants	Contributions of gifts or cash or other assets from another government to be used or expended for a specific purpose, activity or facility, with no obligation to repay (in contrast to a loan, although the award may stipulate repayment of funds under certain circumstances).
Great Recession	A term that represents the sharp decline in economic activity during the late 2000’s, which is considered to most significant downturn since the Great Depression. The term “Great Recession” applies to both the U.S. recession, officially lasting from December 2007 to June 2009, and the ensuing global recession in 2009. The economic slump began when the U.S. housing market went from boom to bust, and large amounts of mortgage-backed securities and derivatives lost significant value.
Infrastructure	Facilities that support the continuance and growth of a community. Examples include roads, water lines, sewers, public buildings, parks and airports.
Line Item	The description of an object of expenditure, i.e. salaries, supplies, professional services and other operational costs.
Operating Budget	The normal, ongoing costs incurred to operate the District, specifically excluding the capital program budget.
Operating Expenses	Expenditures for materials, supplies and services which are ordinarily consumed within a fiscal year and which are not included in the program inventories or capital budget.
Ordinance	A formal legislative enactment by the Board of Directors. It is the full force and effect of law within the District boundaries unless pre-empted by a higher form of law.
Program	A group of related activities performed by one or more organizational units for the purpose of accomplishing a District responsibility.
Reclamation	United States Bureau of Reclamation
Resolution	A special order of the Board of Directors, which has a lower legal standing than an ordinance.
Resources	Total amounts available for appropriation including estimated revenues, fund transfers and beginning fund balances.

San Juan Water District

Fiscal Year 2019-20 Budget

Term	Definition
Reserve	An account used to indicate that a portion of a fund's balance is legally restricted for a specific purpose and is, therefore, not available for general appropriations.
Reimbursements	An amount received as a payment for the cost of services performed/to be performed, or of other expenditures made for, or on behalf of, another entity. Reimbursements represent the recovery of an expenditure.
Revenue	Moneys that the District receives as income. It includes such items as water sales, fees for services, contributions, interest income and other miscellaneous receipts. Estimated revenues are those expected to be collected during the fiscal year.
Transfer In/(Out)	Movement of resources between two funds. Example: An inter-fund transfer would include the transfer of money from the operations fund to the capital fund to set money aside for future capital infrastructure replacements or improvements.
WEL Garden	A demonstration Water Efficient Landscape Garden located behind the Administration Building of the San Juan Water District.
WTP	The Sidney N. Peterson Water Treatment Plant of the San Juan Water District.

Acronyms

Acronyms, as may be used in this document, are familiar terms to those in government but not to those who do not work in that setting. While we tried to avoid their use, they do appear occasionally throughout the budget document. The list below explains acronyms that may appear in this document.

Acronym	Definition
AF	Acre-feet or Acre-foot
AFR	Auburn Folsom Road
BMPs	Best Management Practices
CCF	100 cubic feet (centum cubic feet), equivalent to 748 gallons
CIP	Capital Improvements Program
CSD	Community Services District
CVP	Central Valley Project
CAFR	Comprehensive Annual Financial Report
CalPERS	California Public Employees Retirement System
CHWD	Citrus Heights Water District
COLA	Cost of Living Adjustment
FOWD	Fair Oaks Water District
GIS	Geographic Information Services
GAAP	Generally Accepted Accounting Principles
GASB	Governmental Accounting Standards Board
GFOA	Government Finance Officers Association
HVAC	Heating, Ventilation, and Air Conditioning
IT	Information Technology
LF	Linear Foot/Feet
MGD	Million gallons a day
OVWC	Orange Vale Water Company
PCWA	Placer County Water Agency
PERS	Public Employees Retirement System
SCADA	Supervisory Control and Data Acquisition
SSWD	Sacramento Suburban Water District
WEL	Water Efficient Landscape
WTP	Water Treatment Plant

STAFF REPORT

To: Board of Directors
 From: Paul Helliker, General Manager
 Date: May 22, 2019
 Subject: General Manager's Monthly Report (April)

RECOMMENDED ACTION

For information only, no action requested.

TREATMENT PLANT OPERATIONS

Water Production for April

Item	2019	2018	Difference
Monthly Production AF	3,007.76	2,240.47	34.2%
Daily Average MG	31.62	23.55	34.2%
Annual Production AF	8,777.74	6,196.60	41.7%

Water Turbidity

Item	April 2019	March 2019	Difference
Raw Water Turbidity NTU	4.15	4.58	-9%
Treated Water Turbidity NTU	0.021	0.023	-9%
Monthly Turbidity Percentage Reduction	99.49%	99.50%	

*Folsom Lake Reservoir Storage Level AF**

Item	2019	2018	Difference
Lake Volume AF	741,047	816,838	-9%

AF – Acre Feet

MG – Million Gallons

NTU – Nephelometric Turbidity Unit

* Total Reservoir Capacity: 977,000 AF

Other Items of Interest:

- Performed south influent meter verification.
- Replaced 70 amp Weld Shop breaker.
- Repaired south basin pillow block bearing #1 of floc drive #1.
- Perform annual EQ basin vacuum out and grit removal.
- Complete non-evasive repair of south basin rapid mix drain valve.

SYSTEM OPERATIONS

Distribution Operations:

Item	April 2019	March 2019	Difference
Leaks and Repairs	4	11	-7
Mains Flushed	24	99	-75
Valves Exercised	39	59	-20
Back Flows Tested	39	48	-9
Customer Service Calls	48	33	+15

Distribution System Water Quality:

Water Quality Samples Taken	# Failed Samples	Supporting Information
40 Lab	0	
28 In-House	0	

Other Items of Interest:

- Field Services staff were heavily involved with the service lateral/mainline replacement and Fair Oaks 40" projects.

CUSTOMER SERVICE ACTIVITIES

Billing Information for Month of April

Total Number of Bills Issued	Total Number of Reminders Mailed	Total Number of Shut-off Notices Delivered	Total Number of Disconnections
5189	634	180	11

Water Efficiency Activities

Water Waste Complaints Received	Number of Customers Contacted for High Usage (potential leaks)	Number of Rebates Processed	Number of Meters Tested/Repaired (non-reads)
6	77	5	22

Other Activities

- 7 people attended the "Leak Detection Around Your Home" workshop on April 27th.
- The 2020 Student Art Calendar is complete and winners will be presented their awards at the May Board meeting.

ENGINEERING - NEW URBAN DEVELOPMENTS (SJWD Retail Service Area)

Project Title	Description	Status	Issues / Notes
Ali Minor Subdivision	3-Lot Subdivision	Approved for Construction	Planning for spring 2019 const. start
Barton Ranch	10-Lot Subdivision	In Construction	Nearing completion. Water done,
Chula Acres	4-Lot Minor Subdivision	Approved for Construction	Planning for spring 2019 const. start
Colina Estates	10-Lot Subdivision	In Construction	Nearing Completion. Water is done.
Eureka at GB (former Micherra Place Proj.)	28 Condominium Units	Approved for Construction	Planning for 2019 const. start.
GB Memory Care	Commercial Business	In Design Review	
Greyhawk III	44 high-density, and 28 single family Lots	In Design Review	
Wellquest Senior Living (prior Ovation)	Commercial Business (114-Unit 2-story Assisted Living Facility)	Approved for Construction	Planning for 2019 const. start
Placer County Retirement Residence	Commercial Business (145-Unit Multi-story Assisted Living Facility)	In Design Review	
Pond View	Commercial Business	Approved for Construction	Planning to begin const in 2019
SPFD Station 15	Fire Station Bldg Improvements, with water service upgrades	In Construction	Nearing completion. Water done.
Quarry Ridge Prof. Office Park	Commercial Business (4 parcels to develop four general/medical office buildings)	In Design Review	Planning to begin const in summer 2019
Rancho Del Oro	89 Lot Subdivision	Will need re-approval for Construction	On hold pending County and envr Approvals
Self Parcel Split (3600 & 3630 Allison Ave)	4 Lot Minor Subdivision (on a new street "Laura Lane", off Allison Dr.)	In Construction	Re-start in summer 2019
The Park at Granite Bay	56 lot Subdivision	Approved for Construction	Mass grading done. Re-start in 2019.
The Residences at GB	4-Lot Minor Subdivision	In Design Review	
Ventura of GB	33-Lot Subdivision	In Design Review	
Whitehawk I	24-Lot Subdivision	In Design Review	Planning Dept review underway
Whitehawk II	56-Lot Subdivision	In Design Review	Planning Dept review underway. Likely to build before Whitehawk I.

ENGINEERING - CAPITAL PROJECTS

Status Update for Current Retail Projects

Project Title	Description	Status	Issues / Notes
Douglas Blvd Main Replacement	Replacement of ±4,125-LF of old steel main with new 16-in and 12-in pipeline between Auburn Folsom Rd and Hidden Lakes Dr.	Construction Complete	In closeout.
Dambacher Drive Services Replacement	Replacement of ±19 aged, corroded steel service taps with new bronze saddle taps to reduce potential for failures and leaks	Construction Complete	In closeout
Lou Place Main Replacement	Replacement of approximately 460-LF of aged main and 4 services on Lou Place between Troy Way and Crown Point Vista	In Construction Phase	Construction is complete. Closeout after the punchlist is done.
Edward Ct Main Replacement	Replacement of approximately 300-LF of aged main and 3 services on between Lou Place and the south end of Edward Court	In Construction Phase	Construction essentially complete, in Punchlist phase.
Spahn Ranch Rd. Main Extension	Install new pipeline; provides looped distribution network	In Design Phase	Working with property owner for easement
Cavitt Stallman 12" (Oak Pines to Sierra Ponds)	Install new pipeline on Cavitt Stallman between Oak Pines Lane and Sierra Ponds Lane	In Design	Will delay construction to FY 20/21
Cavitt Stallman 12" (Mystery Cr to Oak Pines)	Install new pipeline on Cavitt Stallman between Mystery Creek Ln and Oak Pines Ln.	In Design	Construction in FY 19/20
Woodminister Services Replacements	Replace 18 aged services	In Design	Construction in FY 19/20
Redbud/Lupin/Meadowlark Services Replmts	Replace 43 aged services	In Construction Phase	Construction complete, in Punchlist phase
Sandstone & Auberry to Hill Rd 8" Ext & Serv	Replace pipeline and services	In Construction Phase	Construction complete, in Punchlist phase
Kokila (SJWD/PCWA) 12-Inch Intertie Pipeline	Interconnection with PCWA	In Design	Working with RWA on Grant Funding

Project Title	Description	Status	Issues / Notes
Mooney Tank Building New Roof	Replace the existing aged roof before failure	Design consultant is selected.	Reviewing options to reduce cost. Const in FY 20/21
Canyon Falls Village PRS Replacement	Rehabilitation of an existing Pressure Reducing Station (PRV) located near the intersection of Canyon Falls Drive and Santa Juanita Ave.	In Design	Bundling to bid with other two planned PRS's
Eastridge Dr CV Station	Design and construct CV station between Sierra and Gravity Zones. Needed to supply 3,125-gpm fire flow for the Wellquest project on SCB	In Design	Bundling to bid with other two planned PRS's
Vactor Solids Handling Station	Design and construct a storage and drying station for managing the vactor truck solids.	Design completed.	Const in FY 20/21
UGB & LGB Low Flow Pumps and LGB/CP MOV	Installation of two new low flow pumps, one each at the Lower and Upper Granite Bay pump stations	In Design. Ready to pre-purchase the pumps	Installation and commissioning in FY 19/20.

Status Update for Current Wholesale Projects

Project Title	Description	Status (% Complete)	Issues/ Notes
WTP Thickeners Lining	Clean, repair and line the interior walls and floor of the three thickeners to eliminate leakage and protect the concrete and reinforcing from damage	In Design. Preparing to Bid.	
FO-40 T-Main Relining	Relining of the existing ±11,000 foot long steel pipeline	In Construction	North and South sections essentially done. Filling and disinfecting South section now.
Hinkle Liner & Cover Repl'mt	Replace both the hypalon cover and liner	In pre-design phase. Planning to operate WTP without Hinkle.	Applying for WIFIA and SRF funding.
Lime System Improvements	Improvements for the WTP's lime system control and feeder system	In Design	
WTP On-Site Residuals Management Improvement Project	Management of the WTP residuals disposal area and improvements needed to meet regulatory requirements.	In Design Phase.	Const in FY 19/20

SAFETY & REGULATORY TRAINING – APRIL 2019

Training Course	Staff
Spill Prevention, Control and Countermeasures Plan	All
Fire Extinguisher Basics	All
Heat Illness Prevention	FS
OSHA/ASME Basic Rigging	Select FS and WTP employees
Aerial lift Certificate Training	Select WTP Maintenance employees

TOTAL	39,449.34	\$ 10,846,276	39,414.24	\$ 10,849,417	(35.10)	-0.1%	\$ 3,141 0.0%

Budgeted Deliveries	39,449.34
Actual Deliveries	39,414.24
Difference	(35.10)
	-0.1%
Budgeted Water Sale Revenue	\$10,846,276
Actual Water Sale Revenue	\$10,849,417
Difference	\$ 3,141
	0.03%

Conclusion:

All regular wholesale customer agencies, except Orange Vale Water Company have taken less water than anticipated in the budget. However, greater than anticipated deliveries to SSWD have almost completely made up the difference. Total deliveries are just 35 acre feet below anticipated deliveries for July through April, a variance of just -.1%. Due to the increase in water treated for SSWD revenues for the period are on track with the budget, with a .03% percent positive variance.

Comparison of Fiscal Year 2017/2018 Actual to 2018/2019 Projections of Deliveries and Revenue

Cumulative Water Deliveries and Revenues FY 2018-19

**Engineering Committee Meeting Minutes
San Juan Water District
May 13, 2019
4:00 p.m.**

Committee Members: Dan Rich, Chair
Ted Costa, Director

District Staff: Paul Helliker, General Manager
Tony Barela, Operations Manager
Rob Watson, Engineering Services Manager
George Machado, Field Services Manager
Donna Silva, Finance Director
Teri Grant, Board Secretary/Administrative Assistant

Topics: FO-40 Construction Inspection Contract Amendment (W)
Regional Metering Project (W & R)
Bacon HVAC Contract (R)
Amendment to GM Construction & Development Inc.'s On-Call Contract (R)
PG&E Community Wildfire Safety Program (R)
Other Engineering Matters
Public Comment

1. FO-40 Construction Inspection Contract Amendment (W)

Mr. Watson provided a staff report which will be attached to the meeting minutes. He explained that the total number of pinholes that were discovered when working inside the pipeline that required patch plate welding repairs was significantly more than what was originally anticipated during design. This increased the time for construction inspection since additional inspection was required to locate each pin hole, as well as inspect each weld repair after it was completed.

Mr. Watson informed the committee that the additional cost will not increase the overall budget for the FO-40 project as it will come from the contingencies. In response to Director Costa's question if FOWD is aware of this item, the Board Secretary informed the committee that FOWD received the agenda and staff report regarding this agenda item and GM Helliker commented that he will contact GM Gray as well.

The Engineering Committee recommends approval of a contract amendment to increase the construction management and inspection contract with Inferred Construction Management Group, Inc. (ICM) by \$50,000 for the completion of construction of the Fair Oaks 40" Pipeline Relining Project.

2. Regional Metering Project (W & R)

Mr. Barela informed the committee that negotiations are complete with Harris & Associates and the total cost to the District for the metering project will be reduced from the original projected cost of \$104K to \$94-96K. He reported that the draft MOU was received, reviewed by legal counsel, and sent to CHWD for comments. Mr. Barela will bring this item to the Board for review.

For information only; no action requested.

3. Bacon HVAC Contract (R)

Mr. Barela provided a staff report which will be attached to the meeting minutes. He explained that the variable frequency drives (VFDs) located at the Bacon Pump Station (BPS) have a history of becoming hot in the summer time, causing them to trip (shut down). In addition, a new fiber optics connection was installed at the BPS which is temperature sensitive and requires climate control to prevent overheating and condensation damage. He explained that, other than fans, the existing station does not have any climate control within the building.

Mr. Barela informed the committee that eight firms attended the pre-bid meeting and only two presented bids. After review of the proposals and supplemental information, and a meeting with Aria Electric to confirm the project, staff is recommending that AEC be awarded the design-build project.

The Engineering Committee recommends awarding a construction contract to Aria Electric & Construction (AEC) for the amount of \$79,000 for the Bacon Pump Station HVAC Project and authorizing a total budget of \$87,000 (includes a 10% contingency).

4. Amendment to GM Construction & Development Inc.'s On-Call Contract (R)

Mr. Machado provided a staff report which will be attached to the meeting minutes. He explained that this change order covers support work such as ARV replacements, backflow replacements, hydrant replacements, and service replacements for the remainder of this fiscal year. The committee discussed the new RFP for next year.

The Engineering Committee recommends amending GM Construction & Development Inc.'s On-Call Contract for additional construction services for FY18/19 in the amount of \$62,500; bringing the total contract to approximately \$772,614.

5. PG&E Community Wildfire Safety Program (R)

Mr. Barela informed the committee that PG&E is implementing operation changes related to fire protection. He explained that PG&E is expecting some areas in California to experience extended outages in the summer months, but the District for the most part will not be affected.

Mr. Barela informed the committee that the Los Lagos Tank and the intertie with PCWA may be affected during some outages; however, discussions with the PG&E representative indicated that these facilities are located on the edge of the Tier 2- Elevated area and may not be affected. He informed the committee that staff is considering installing a solar energy panel at each location to assist the District should a power outage occur.

For information only; no action requested.

6. Other Engineering Matters

There were no other matters discussed.

7. Public Comment

There were no public comments.

The meeting was adjourned at 4:25 p.m.
