

August 23, 2017

Ms. Teri Grant
Board Secretary
San Juan Water District
P.O. Box 2157
Granite Bay, CA 95746

Re: Letter of Interest for Vacant Board of Directors Position

Dear Ms. Grant,

Please consider this letter as indicating my very strong interest in filling the vacant Board of Directors position left by Mr. Bob Walters's untimely passing.

As a twenty year resident of Granite Bay and registered voter living within the San Juan Water District's water service area, I have always been very interested in providing the highest quality water at the lowest possible rates as well as in water conservation. To this end, in November 2014 I ran for the San Juan Water District Board of Director's and fell just short of being elected. I believe the current vacancy may be an opportunity for me to provide my passion and expertise of water to the Board.

As noted on my attached resume, I have extensive experience as Director of Utilities for the City of Sacramento in the areas of water rights negotiations, water conservation, water production, and establishing water rates. I believe this experience can help me provide the Board and the retail and wholesale customers of the District in facing the ongoing challenges of providing the highest quality water at the lowest possible rates, continuing water conservation efforts, and protecting our regional water rights. I am also very familiar with the many other water boards in the area and California. i.e, Regional Water Authority, Sacramento Water Forum, Association of California Water Agencies, etc. as I served on the Regional Water Authority from 2009 through 2011.

Please let me know if you have any questions. I look forward to the opportunity to interview with the remaining four Board members on September 13, 2017.

Sincerely,

A handwritten signature in blue ink, appearing to read "Marty Hanneman", with a long, sweeping horizontal line extending to the right.

1999-2005

Civil Engineer of the Year -American Society of Civil
Engineers (ASCE), 1998

I have over 32 years of successful planning, implementation, and administration of public works projects and programs. I bring a solid history of successful management having served as Deputy Director of Public Works, Director of Transportation, Director of Utilities, and Assistant City Manager for the City of Sacramento, CA. I am recognized as a dedicated professional with exemplary work ethic, excellent communications skills with a focus on continuous process improvements while maintaining the ability to effectively navigate through politically sensitive environments. I have experience in budget management, asset management, inventory controls, negotiations, organization development, grant funding, capital improvement programs, public works, water rights negotiations, water conservation, water production, water rates, utilities, transportation, parking and project management.

City Engineer

8/2016 to Present – Town of Atherton

Manage and oversaw the duties of the City Engineer and provided technical guidance to citizens, elected officials, city staff and others as needed.

Project Manager

8/2016 to Present – Town of Atherton

As the owner's representative, oversaw the design and construction of the Civic Center project. The project consisted of: renovation of a historic Town Hall, demolition of a number of buildings and construction of new Library, City Administration, Community Development and Police Department building. Construction cost estimate is \$38.1 million.

Project Manager

12/2015 to 7/2016 – Marin County Transit (Marin Transit)

As the owner's representative, oversaw the design and reconstruction of the Redwood Blvd. and Grant Ave. transit center improvement project in the City of Novato, CA. Construction cost of \$3.1 million.

Project Manager

8/2014 to 12/2015 – Solano County Transit (SolTrans)

As the owner's representative, oversaw the design and reconstruction of the 28,000 SF Operations and Maintenance Facility Renovation and Modernization project in the City of Vallejo. Construction cost of \$4.5 million.

Project Manager

9/2013 to 8/2016 – Solano County Transit (SolTrans)

As the owner's representative, oversaw the design and reconstruction of the 590 space parking lot and transit center known as the Curtola Park & Ride Hub project in the City of Vallejo. Construction cost of \$10.5 million.

Interim City Traffic Engineer

2/2013 – 6/2014 - City of Vallejo, Public Works Department

Managed and oversaw the duties of the City Traffic Engineer and provide technical guidance to citizens, elected officials, city staff and others as needed.

Municipal Services Engineer

11/2012 – Present - Interwest Consulting Group, Roseville and Elk Grove, CA

Provide public works agency clients with engineering support.

Director of Utilities Department

2008 – 2011 - City of Sacramento, Utilities Department

Oversaw the Solid Waste, Engineering, Field Services, Water Plant Services and Business Services operations with 700 FTE's and \$212M operating budget. During this time, I oversaw water rights negotiations, water conservation, water production, water rates, and the delivery of many multi-million dollar infrastructure projects.

Assistant City Manager

2006 – 2009 - City of Sacramento, Office of the City Manager

Oversaw the following departments: Planning and Finance, Departments of Transportation, Utilities, General Services, Parks & Recreation, and Development Services. I was also the City's Project Manager in 2006 that negotiated the historic sale of the 230 acre downtown rail yards and intermodal station from Union Pacific Rail Road to Thomas Enterprises, Inc. and the City of Sacramento. I continued as the Project Manager to 2010 leading the project through all the necessary regulatory entitlements and infrastructure financing for development.

Director of Department of Transportation

2004 – 2006 - City of Sacramento, Department of Transportation

Oversaw Engineering Services, Street Services, Signing and Markings and Traffic Signals, Traffic Engineering and Parking Services Divisions. Job duties included: Served as the principal administrator of the Transportation Department; planned, organized, and directed all the activities of the divisions that comprise the Transportation Department – 335 FTE's and \$33M budget.

Department of Public Works

1991 – 2004 - City of Sacramento, Department of Public Works

Began as Associate Civil Design Engineer and steadily moved up to Deputy Director. During this time, the department delivered many infrastructure projects (e.g., interchanges, roadways, overcrossings, etc.) in which I played an important role in delivering. As City Traffic Engineer from 1993 to 2003, I oversaw all signs and markings, traffic signal operations, and citywide traffic investigations for the City. During this time, the following programs were developed: Integrated Traffic Operations Center (TOC) to centralize all 730 citywide traffic signals, Adult School Crossing Guard Program, Neighborhood Traffic Calming Program, Children's Traffic Safety Education Program, Transportation Programming Guide, Bikeway Master Plan, Roundabout Guidelines, New Development Pedestrian and Bicycle Friendly Street Standards, Traffic Calming Guidelines, Angled Parking Program, Red Light Camera Program, and Pedestrian Safety Guidelines.

Staff Engineer

1986 – 1991 - DKS Associates, Inc., Oakland and Sacramento, CA

Staff Engineer designing a variety of infrastructure (i.e., underground utilities, roadways, bridges, traffic signal operations and light rail systems), Light and heavy rail design, performed numerous traffic impact studies, signal progression, traffic calming, bus scheduling and parking studies.

Junior Engineer

1985 – 1986 - DeLeuw Cather and Associates, Inc., Buffalo, NY

Assisted in designing of freeway sections, off-ramps, cost estimating, quantity take-offs, drafting, field surveying and staking.
