**DELIVERING
HIGH-QUALITY,
RELIABLE WATER**

CONSTRUCTION ALERT: PIPELINE RELINING PROJECT STARTS IN THE FALL

To ensure you have a reliable, high-quality water supply, the second phase of construction starts on our 40-inch diameter water transmission pipeline this fall. We are relining the pipeline during the lower water demand time of the year to reduce customer impact.

The 11,000-foot-long pipeline alignment travels along several highly trafficked streets and through some customers' backyards. We will contact our directly-impacted customers to inform them about the construction activity and necessary easement access. Construction begins this fall and is expected to be completed in the summer of 2018.

This project is part of our capital improvement program. As always, our top priority is to complete this project in a timely, cost-effective manner, while minimizing construction and customer impacts.

If you want more information, please call (916) 791-0115. Watch for construction updates and alerts on our website at sjwd.org, on Facebook or Twitter @SanJuanWtrDist

SAN JUAN WATER DISTRICT BOARD MEMBER ROBERT "BOB" WALTERS PASSES AWAY

It is with heavy hearts that the San Juan Water District announces the passing of Board Member Bob Walters. Bob passed away early Saturday morning on August 5 after a short battle with an aggressive cancer. We are grateful for his years of service to the San Juan Water District and he will be missed.

Bob was elected to the Board of Directors in 2006. He served as Board President in 2009 and 2014. Bob was currently serving as Vice President of the Board and previously held this position in 2008 and 2013. He also served as Chair of the Legal Affairs Committee since 2008 along with serving on the Conservation Committee, Engineering Committee, Personnel Committee and Water Supply & Reliability Committee over the years.

“We are deeply saddened by the passing of our friend and colleague Bob Walters. Bob had a heart for service and, as a colleague, was always a strong advocate for what was best for our residents and the District.”

EXPERIENCE NAVIGATION SIMPLICITY ON OUR NEW WEBSITE

We recently launched our new, user-friendly website. You now can easily navigate through pages like the transparency hub, FAQs, bill pay and the events calendar. Some new elements include a fresh, new look and feel and the integration of current website trends like our "What's New" page. Visit sjwd.org to check it out!

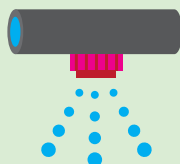

TOP 5 FALL PLANTING TIPS!

Fall is here. The weather is changing. Find out why your planting should, too!

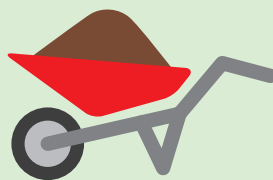

Compost!

If you haven't tried it, now's your chance. Create your own compost pile.

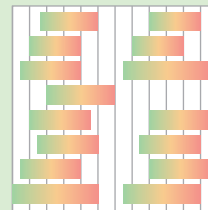

Use a Drip System

Drip plant watering is an effective way to keep your plants alive and use water efficiently.

Mulch More

Use mulch to prevent weeds and lock in moisture.

Follow a Veggie Calendar

Use a northern California veggie calendar to guide your fall vegetable planting. Make sure you're planting the right veggies in the right month,

Keep your Color

Keep your garden colorful by planting flowers that feature vibrant hues.

FALL CLASSES ARE BACK. SIGN UP NOW!

KEEP YOUR METER BOX CLEAR & CLEAN

Please keep your meter box free of landscape materials and weeds. Keep two feet of the area around your meter box clear so we can access and read your meter. If you receive a notice about an overgrown meter box, please clear it at your earliest convenience.
