

Temporary Distribution Maintenance Helper

ABOUT US

San Juan Water District, located in Granite Bay, California, is a community services district created by a vote of the citizens in 1954. The District provides wholesale water to more than 160,000 people and retail to 30,000 people living in eastern Sacramento and southern Placer Counties. The District wholesales water to Citrus Heights, Fair Oaks and San Juan (retail) Water Districts, Orange Vale Water Company and the City of Folsom with surplus treatment capacity available to Sacramento Suburban Water District. The District provides treatment and delivery of more than 50,000 acre-feet of water per year to wholesale and retail customers.

With rich history dating back to the Gold Rush era, the District has served the community for more than 150 years. The District's highest priority is to provide reliable, high-quality water to its customers – every day, year in and year out. The District is significantly involved in reshaping California's water dialogue.

San Juan Water District is led by a five-member board of directors who are elected by the community to provide guidance, strategy, and policy for district programs and policies.
