

San Juan Water District REQUEST FOR PROPOSALS

The San Juan Water District, located in Granite Bay, California, is requesting proposals from qualified construction inspection firms to provide construction inspection services for the Eureka Road Pipeline Replacement Project (construction project).

The construction inspection services firm shall participate throughout the life of the construction project to assure that all construction elements and systems work individually and together as intended and required. Construction inspection shall effectively and efficiently ensure that all work complies with the approved construction documents, permits, traffic control plans, water pollution control plans, and all applicable codes and regulations. The construction project generally consists of the following: installation of approximately 4,000 lineal feet (LF) of new 18-inch diameter Ductile Iron transmission pipeline, reconnecting to 8 distribution mains, reestablishing 17 water services (including removing and replacing water meter boxes and meters), installing 2 new fire hydrants, removing and replacing 1 fire hydrant, installing 5 new air release/air vacuum valves, and installing 2 water sampling station. All work will occur along Eureka Road, Granite Bay CA between Barton Road and Auburn/Folsom Road within Placer County, CA. **The construction project and construction inspection services are being funded by the Drinking Water State Revolving Fund (DWSRF).** Certified Disadvantaged Business Enterprises are encouraged to submit proposals.

Request for Proposal (RFP) packets may be obtained from the <http://www.publicpurchase.com>. The RFP packet may also be examined at the District office, with prior notice to the District's representative (Mark Hargrove, mhargrove@sjwd.org, (916) 791-6951, located at 9935 Auburn Folsom Road, Granite Bay, California). Hard copies will not be provided to prospective firms.

All proposals must be received by 1:30 p.m. on June 8, 2022. There will not be a pre-proposal meeting. Interested firms should submit their technical and cost proposal(s) in Adobe Acrobat (.pdf, unlocked and printable) format by e-mail to the District's representative. Firms shall refer to RFP packet for additional instructions and conditions.

Dated this 27th day of April, 2022
