

## IT'S TIME TO HIBERNATE

With winter well upon us, it's the perfect time to let your irrigation system hibernate! During the rainy season, very little, if any supplemental watering is needed. Leaving your irrigation system on through the winter results in wasted water and can also become a safety hazard if water runoff freezes on sidewalks.

Winter tip! Smart irrigation controllers will automatically adjust based on the current weather conditions. Install yours today.

## District Director Elected President of Statewide Water Association

We're thrilled that Pamela Tobin, one of our directors, has been elected as the new president of the Association of California Water Agencies, the largest statewide association of water providers in the U.S.

As president, Director Tobin will head ACWA's leadership team to guide the Association's advocacy efforts to protect and promote California's water interests. While Director Tobin is responsible to represent all ACWA members, her presence in ACWA leadership will elevate issues important to San Juan Water District and the Sacramento region.

## WATER SHUTOFFS TO RESUME WITH JANUARY BILLS

To help our customers through uncertain times during the pandemic, we suspended water service shutoffs. Shutoffs due to nonpayment will resume with the January 2022 bill cycle. Disconnections due to unpaid balances will start in March.

Please contact us at 916-791-0115 if you need to make payment arrangements for any unpaid balances to avoid disconnection of service.

You can view and pay your bill online at [municipal-onlinepayments.com/sanjuanwaterdistrictca](https://municipal-onlinepayments.com/sanjuanwaterdistrictca).

## CONTINUE TO CONSERVE!

Residents in the Sacramento region continue to reduce their water use by making small changes. Visit [BeWaterSmart.Info](https://www.bewater-smart.info) for more water-saving tips!

Fixing household leaks saves 30-50 gallons per day

## OFFICE CLOSURES

Our office will be closed on Monday, Jan. 17 in observance of Martin Luther King, Jr. Day and Monday, Feb. 21 for Presidents' Day. For water related emergencies, please call 916-791-0115.
