DOUGLAS BOULEVARD PIPELINE REPLACEMENT PROJECT

THE DETAILS: PHASE 4

Phase 4, West End of Jobsite >

ALL ABOUT PHASE 4

SCHEDULE

Phase 4 is anticipated to be constructed from mid-October through **January** 2019.

ANTICIPATED CONSTRUCTION

Minor Impacts to Traffic and Access Driveways

Phase 4 consists of installation of pipe along the south side of Douglas Boulevard, from Partee Court to Oak Knoll Drive. This phase involves trenching along the southerly edge of the pavement, and will require periodic closures of the eastbound number 2 (slow) lane and associated traffic controls.

THE STATS

Installation of approximately 1,675 lineal feet of new 12-inch diameter ductile iron pipe and PVC pipe.

The method of construction for Phase 4 of the overall project will rely on both the traditional open trench excavation and the pipe bursting methods.

PHASES 1, 2 & 3
