

Ordinance Type	Water Systems for Subdivisions/Major Development/Parcel Maps	Date Adopted	June 28, 2006
Ordinance Number & Title	26000 - Extent of Systems for Subdivision and Parcel Maps	Date Amended	June 25, 2008

26000.01 Location and Scope of System

Water systems for subdivision and parcel map developments shall be installed in all public streets so that each lot of the subdivision or parcel of the parcel map can be served with a water lateral. To provide for future line extension, pipelines installed within public streets must be constructed to the subdivision boundary and pipelines not installed within a public street must be installed in a District easement or right-of-way and must extend across the frontage of the parcel or parcels to be served.

26000.02 Request for Variance

Each request for a variance of any requirement of this Section must be submitted to the Board of Directors in accordance with Section 7000 of this Code. In approving any request for variance, the Board of Directors may impose any condition it deems necessary to protect existing systems and to assure adequate service to present or future property owners or Customers.
