Teri,

I sat through the meeting just now and had my hand raised to speak but wasn't called upon. When I clicked on some of the icons, I was informed that I don't have a MIC. Very frustrating!

I wonder how many others have older equipment and are unable to participate. When I attend the virtual hearings at Placer County, I have been able to speak every time an agenda item comes up that I am interested in. This venue caught me off guard.

I had a question that I wanted to ask re distribution. If a person lives in CH but because of balancing numbers gets put into FO, who do they get water through, pay bills, etc.?

Please register my complain re process with the Directors.

Sandy
