Zip

Water Account Number

Site Assessor's Parcel Number (APN)*

*APN can be found online by County. Sacramento County: assessorparcelviewer.sacounty.net/, Placer County: www.placer.ca.gov/5866/Property-Details

3. Who is your water provider?

San Juan Water District

4. Which of the following best describes your property? (Please circle one)

Single Family Residential

Multi-Family Residential

Commercial/Business

Institutional

5. Terms and Conditions

1. The applicant applying for the rebate must be a water service customer of San Juan Water District and the site where the equipment is to be installed must receive water service from San Juan Water District.
2. The site must currently be metered and account in good standing with San Juan Water District.
3. Rebates are only available to improve existing in-ground irrigation systems and/or automatic timers. New irrigation system installations are not eligible. **Turf replacement rebate must replace living and irrigated turf grass landscape.**
4. The maximum combined rebate for turf replacement and irrigation system efficiency upgrades is \$1000.00 per active meter. Rebate may include materials and labor (installation) costs. Material cost per unit must not exceed manufacturer's suggested retail price. Installation is the sole responsibility of the applicant. However, the applicant can choose to hire a licensed (State of California C27, C36 or applicable CSLB A classification license) landscape contractor. To confirm that a contractor holds a valid license visit www.cslb.ca.gov. Installation costs from a licensed landscape contractor can be reimbursed through this Program **for up to \$150** per meter/property/customer for a total **rebate not to exceed \$1000.00**. In order to receive reimbursement for installation costs, a detailed invoice from a licensed contractor with itemized material and labor costs must be submitted to the water provider. Self-installation by a residential or commercial/institutional property owner/staff may not receive reimbursement for installation costs.
5. Rebates of more than \$599.99 require a W-9 to be submitted prior to approval. Rebates may be given for turf replacement, water efficient equipment and labor for installation of water efficient landscape equipment and turf removal/replacement. Incidental

supplies such as couplings, wiring, electrical tape, etc. are excluded from rebate funding. Participants are eligible for one rebate per meter.

6. Turf replacement upgrades include removal of current living and irrigated turf grass to be replaced by permeable materials including low water use and native vegetation, gravel, and mulch following your water provider's program requirements. **Purchase and installation of Artificial Turf DOES NOT QUALIFY for this rebate.** Customer purchase receipts for plant materials are required.
7. Eligible irrigation equipment upgrades include equipment that improves irrigation efficiency as determined by the staff of the applicant's water provider. Itemized receipts and/or invoices are required. Upgrades may include:
 - a) Matched precipitation rate sprinkler heads equipped with pressure reducing devices or check valves: to standardize all equipment within systems.
 - b) Drip irrigation equipment: converting existing non-turf area spray equipment to low volume drip.
Note: Microspray systems do not meet the terms of the Program. Drip systems must be separated from overhead spray heads with an independent valve.
 - c) Convert standard spray type nozzles to low precipitation, high distribution uniformity or multistream nozzles.
 - d) Pressure regulation equipment for irrigation system.
 - e) Smart Irrigation Controllers or related equipment that upgrades standard irrigation timers to smart timers (i.e., rain sensor, moisture sensors, weather stations etc.).
8. Any project that is started before the water provider approval is not eligible for a rebate.
9. All applications for rebates must be submitted by applicants no later than January 1, 2026.
10. Rebate program is subject to available funding. Rebates will be distributed on a first-come, first-served basis until funding is depleted. Submission of an application does not guarantee a rebate.
11. Water providers are entitled to fully review all reported labor and materials costs and reserve the right to deny reimbursement to any applicant for extraneous costs.

6. Instructions

1. Submit a completed application to San Juan Water District. Once the application has been received and rebate funds have been identified, contact the Water Efficiency staff to schedule a pre-inspection of the property, which includes an audit of your outdoor irrigation system.
2. Turf grass removal, purchase and installation of all approved irrigation equipment and new plant material must be completed within 120 days from the date of the approved customer rebate application.
3. You must provide original purchase receipts for irrigation upgrades to the water provider. Receipts are not required for turf grass removal. Submission of the applicable purchase receipts are required to be eligible for a rebate under this Program. If a contractor purchased the materials, you must request a detailed invoice showing separate line items for materials and labor.
4. A rebate in the form of a check or a bill credit will be issued by your water provider within 45 days from the approval date.
 - a. If the rebate is more than \$599.99, submit an IRS for W-9.
5. Submit 5 photos of completed project to San Juan Water District within 30 days of project completion.

7. Agreement

I irrevocably authorize the water provider, or anyone authorized/designated by the water provider, to use or reproduce any and all photographs which have been taken of my landscape as part of the Outdoor Rebate Program by the water provider or the water provider's authorized agent(s) for any purpose determined by the water provider without compensation or further notice to me.

I have read and understand the program information as stated in the attached application materials including Program Terms and Conditions in Section 5 and Instructions in Section 6 of this application. I understand that by signing below, I agree to allow an official from my water provider to verify the installation of the equipment and new plant material at said property. I agree to indemnify and hold the Regional Water Authority, my water provider, and their respective directors, officers, employees and agents, harmless from any and all liability or claims for damage, including any attorneys' fees and costs, connected to or in any way arising from the Outdoor Rebate Program, the inspection of the premises to verify proper installation, and any other activity related to this program.
